

Department of State's Attorneys & Sheriffs

Annual Report Vermont - SIU Grants Program ~January 2018~

*Progress Report for the establishment and sustainment of Special
Investigation Units established pursuant to 24 VSA§1940.*

Marc Metayer, SIU Grants Program Manager, VT Dept. of State's Attorneys & Sheriffs
1/25/2018

EXECUTIVE SUMMARY

Current Status: County-based Special Investigation Units (SIU) are supported in twelve (12) counties; Essex County and Grand Isle County are supported by SIUs in neighboring counties. **Program Support Grants** are approved for the SIU administrative and operational expenses to sustain the core structure of the respective units. All the SIUs are co-located with the existing Child Advocacy Centers in their counties. This affiliation allows the SIUs and CACs to minimize duplicative administrative functions while strengthening the ability to provide a coordinated response for Vermont citizens.

Law Enforcement Support Grants are approved for eleven (11) law enforcement investigators around the state. Addison, Bennington, Orange (x2), Orleans, Rutland, Washington, Windham, and Windsor counties receive this supplemental funding resource at the maximum funding level of \$60,000 per grant award. This funding supports the services of a full-time investigator from a municipal or county law enforcement department. Caledonia County receives a reduced award amount (\$54,000) to support a combined investigator resource provided by two local police departments in the county (St. Johnsbury PD – ½ time/Hardwick PD – ¼ time). Lamoille County receives a \$60,000 grant award which is divided among three law enforcement agencies within the county (Lamoille Sheriff's Department/Morristown PD/Stowe PD). When combined with the services of investigators assigned by the Vermont State Police, these positions represent the core of the specialized law enforcement investigators who directly support the SIUs.

Law Enforcement Reimbursement Grants are awarded to Essex County and Grand Isle County, as provided for in 24 VSA§1940. The Essex County Sheriff's Department provides investigative services to support investigations coordinated by the Caledonia SIU and the Orleans SIU, while the Grand Isle Sheriff's Department has established a working partnership with the Northwest Unit for Special Investigations in Franklin County.

Training: **NCAC Forensic Interview** training was conducted in two sessions during May. Each session was conducted over three days with the basic class held in South Burlington and the advanced class held in Rutland.

Crime Victims with Disabilities – this day and a half session was conducted in conjunction with the annual conference of State's Attorneys.

SCOPE OF REPORT

This report covers major activity and current operational status for the Special Investigations Units in Vermont during the calendar year 2017.

Statistical reporting reflects activity during the State Fiscal Year 2017, which encompasses the period of July 1, 2016 through June 30, 2017.

Grant Awards documented in this report are for FY18 award amounts (current fiscal year).

CURRENT STATUS

Special Investigations Units (SIUs), as authorized by Title 24 VSA § 1940, are operational in all Vermont counties. Each SIU has an executive director responsible for the administrative duties of the respective SIU.

In collaboration with the Vermont Children's Alliance, all SIUs are partnered and co-located with Child Advocacy Centers (CACs) throughout the state.

<http://www.vtchildrensalliance.org/>

The accreditation body for the CACs is the National Children's Alliance (NCA). NCA provides detailed criteria for CAC accreditation and provides the professional standards for multi-disciplinary team operations, as adopted by Vermont SIUs.

<http://www.nationalchildrensalliance.org/index.php?s=24>

In addition to providing professional performance standards, the affiliation with NCA and the Vermont Children's Alliance has been an excellent conduit for obtaining the specialized training required by the units. This affiliation has also provided access to a records management system (NCATrak) that provides consistent statistical information from each of the operating SIUs. The implementation of NCA's Outcome Measurement System (OMS) is another example of leveraging the resources of partner organizations.

The State of Vermont currently provides Program Support Grant funding to SIUs in twelve counties. For the two remaining counties; Essex County is supported by SIUs in Caledonia and Orleans Counties, while Grand Isle County has an active partnership with the Northwest Unit for Special Investigations located in Franklin County.

Additionally, Law Enforcement Support Grant funding is provided through grant awards to SIUs for support of investigation resources provided by local police departments and Sheriff's departments. Grant funding awards to support law enforcement investigators are currently active in twelve counties (Addison; Bennington; Caledonia; Essex; Grand Isle; Lamoille; Orange; Orleans; Rutland; Washington; Windham; and Windsor). Eleven grant awards support law enforcement investigators by providing supplemental funding to the

respective departments. Essex and Grand Isle Sheriff's Departments are reimbursed on an hourly basis for their services, as mandated by statute.

TRAINING

During 2017, a continued focus of training effort was in the development of forensic interview skills. Turnover for law enforcement and DCF partners working with the SIUs has created the demand for ongoing training offerings in this area.

May 2017: One session of ***Forensic Interviewing of Children*** was conducted in South Burlington. A total of 37 students attended this three-day training session. This course is the baseline training for investigators who conduct interviews with children. Participants were primarily law enforcement and DCF personnel. See link for sample description of course: <http://www.nationalcac.org/forensic-interviewing-of-children-training/>

May 2017: One session of ***Advanced Forensic Interviewing*** was conducted in Rutland. A total of 32 students attended this three-day training session. This course is designed as the follow-up instruction for attendees of the initial Forensic Interviewing of Children training that have had the opportunity to use these skills in field practice for at least a year. See link for sample description of course: <http://www.nationalcac.org/advanced-forensic-interviewing-training/>

June 2017: ***Crime Victims with Disabilities*** was presented by Scott Modell during a day and a half session at the annual conference of the Department of State's Attorneys. Attendees included a mix of prosecutors, law enforcement officers, and DCF staff. The learning objectives of this training included:

- To describe the unique characteristics of individuals with intellectual, physical, and communication disabilities that increase the risk of abuse.
- Demonstrate an understanding of verbal communication in the context of communicating with and interviewing individuals with disabilities.
- To recall specific interview techniques for use in the investigative and legal environments to optimize communication with individuals with disabilities.
- Practice specific interviewing skills to effectively interview crime victims with disabilities.

Grant Award Summary – FY18

County	Program Support	Law Enforcement	Total Grant Awards
Addison	\$69,766	\$60,000	\$129,766
Bennington	\$100,221	\$60,000	\$160,221
Caledonia	\$61,697	\$54,000	\$115,697
Chittenden	\$117,307	n/a	\$117,307
Essex	n/a	\$20,000*	\$20,000
Franklin	\$97,246	n/a	\$97,246
Grand Isle	n/a	\$20,000*	\$20,000
Lamoille	\$100,956	\$60,000	\$160,956
Orange	\$131,050	\$120,000**	\$251,050
Orleans	\$104,425	\$60,000	\$164,425
Rutland	\$124,630	\$60,000	\$184,630
Washington	\$108,991	\$60,000	\$168,991
Windham	\$100,712	\$60,000	\$160,712
Windsor	\$113,383	\$60,000	\$173,383
Total Awards	\$1,230,384	\$694,000	\$1,924,384

Program Support Grants support the local SIU administrative and site operational expenses.

Law Enforcement Grants support the participation of SIU dedicated law enforcement investigators from municipal police departments and/or county sheriff’s departments.

Both types of grants limit the amount of salary funding to the 50% of total salary expense for each SIU, as provided in the enabling legislation.

* Essex County Sheriff’s Department and Grand Isle County Sheriff’s Department are covered by a reimbursement for services process; up to \$20,000 is reserved for each department as outlined in 24 VSA §1940 (c). A 50% matching funds element is included in these grant awards, and the respective counties are paying half of the personnel expense related to providing investigation services.

** Orange County receives two law enforcement support grants to provide for the assignment of two deputies as dedicated SIU investigators in lieu of an assigned VSP investigator.

STATISTICAL OVERVIEW - FY17

Program, financial, and statistical reporting from the SIUs are required on a quarterly basis throughout each fiscal year. Beginning with FY13, all SIUs receiving VT SIU Grant Program funding are required to use NCATrak as the standardized statistical reporting system. Although there will be some minor modifications of reporting categories, the basis of reporting will be overall caseload per SIU with breakdown categories to establish age and gender grouping for victims and offenders, as well as victim support services as provided and summary of court action undertaken.

Specialized reports have been created in NCATrak that will provide the SIUs with two types of reports: the first is a statistical count report for the unit, while the second report is designed as a management tool to track case progress. It should be noted that with the combination of SIU/CAC functions, the reporting of clients served (adult/child) is often higher than law enforcement cases with charges or prosecutions reported. Primarily, this is due to the mission of the units to serve all victims when sexual violence or abuse may be suspected. Until a determination can be made concerning allegations, support for victims and non-offending family members is the primary focus with court action undertaken only when merited.

This section contains chart and graph depictions of the caseload and demographic makeup of victims and offenders that comprise the workload of the SIUs. Now, with the compilation of data over multiple years, it is possible to provide a glimpse of workload trend by county. Trend charts for the most recent three-year period are provided to illustrate the client count by county and the relative provision of specialized services for those clients.

FY17 SIU - New Cases by Victim Age Grouping

SIU Client Count 3 - Year Trend

In managing the referred *Allegations of Abuse*, specialized services can vary according to the needs of the individual client(s). The provision and coordination of these specialized services are at the heart of the mission of the SIU model.

Medical Screening/Examinations; Mental Health Counseling/Referrals; and Forensic Interviews are the specialized services which are provided or coordinated by the SIU/CAC to assist victims and non-offending family members. The need for these services can vary by individual circumstance, but the goal is to provide for the appropriate assistance in a timely and seamless manner.

Direct Services provided include forensic interviews of siblings, courtesy interviews conducted on behalf of other SIUs or agencies, and educational presentations. These are services which may, or may not, be related to an active case of the SIU, but involve direct services provided because of the expertise of SIU staff.

Indirect Services are primarily sex offender registry checks and violations, child pornography cases which do not involve a locally identifiable victim, and review of DCF intakes that are not accepted for further action by DCF. In addition, public information and community awareness presentations fall in this category. A number of SIUs also provide technical support for evidence retrieval from electronic devices, a service shared with neighboring law enforcement agencies.

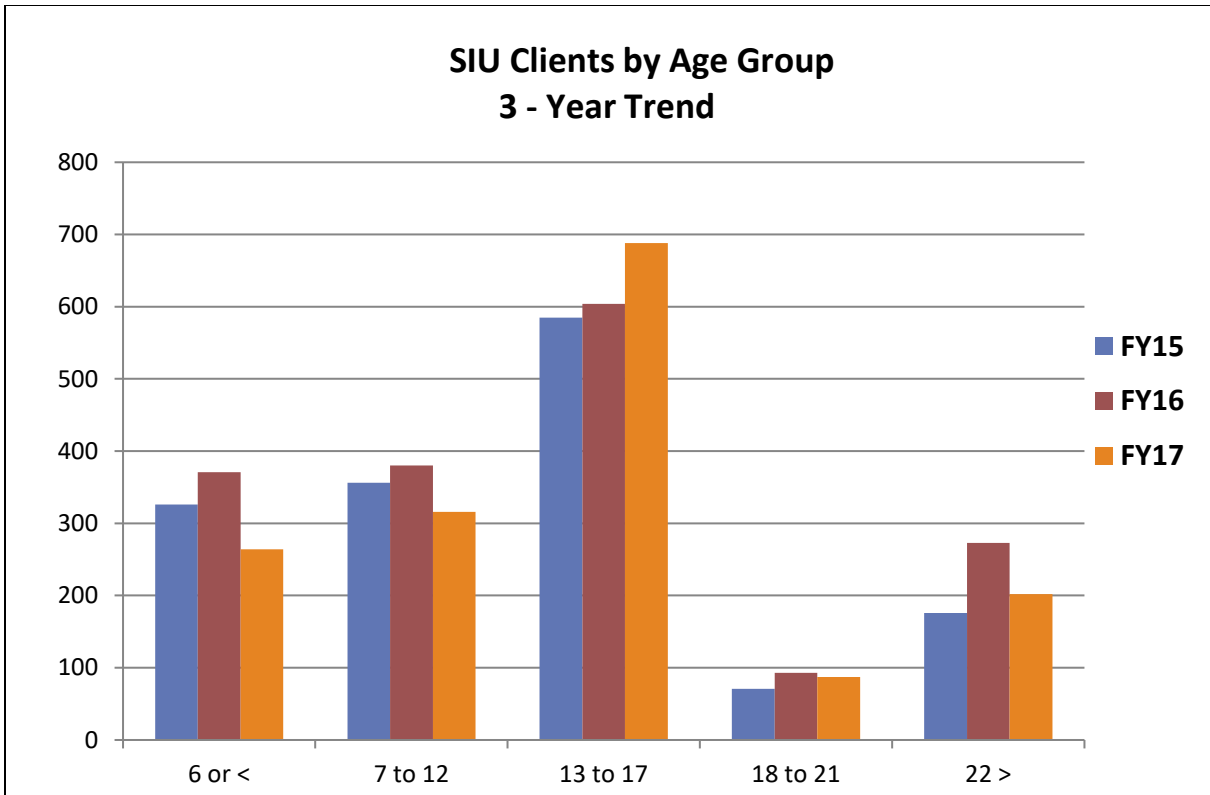

FY17 SIU- Offender Relationship - Child Victims

FY17 - Offender Relationship - Adult Victims

Outcome Measurement System – OMS

During the last couple of years, Vermont CACs/SIUs have adopted and implemented an outcome measurement system developed by, and available through, the National Children's Alliance. The following is an excerpt to describe OMS:

“The National Children's Alliance offers the Outcome Measurement System (OMS) to help CACs evaluate their programs to increase the quality of services provided to children and families and improve the collaborative efforts of multidisciplinary team (MDT) members. The Outcome Measurement System was originally developed by CACs of Texas in collaboration with the RGK Center at the University of Texas at Austin. The rigorous, evidence-based process of developing OMS began in 2006 and launched to CACs of Texas members in 2010. The National Children's Alliance began a national pilot of the OMS program in 2012 and, with collaborative help to streamline and improve the process from the Crimes Against Children Research Center at the University of New Hampshire, expanded the program for nationwide use in 2014. Hundreds of CACs participate in the Outcome Measurement System (OMS) to make sure that the services they provide to kids and families—and the MDT model—are working. Through OMS, these centers ask caregivers of children served by CACs and their MDT members standard survey questions to measure how well they are providing three things to children and families:

- **Healing:** Restoring the lives of children and families after abuse
- **Justice:** Striving toward just outcomes for victims of abuse and protecting all kids from abusers
- **Trust:** Ensuring children, families, and MDT members can trust their center and the CAC model

The utilization of OMS helps centers evaluate their efforts to increase the quality of services they provide and to improve the collaborative efforts of MDT members by measuring two main outcomes:

- How well the CAC facilitates healing for children and caregivers
- Whether MDT approach results in more collaborative and efficient case investigations

Two caregiver surveys are utilized to measure the first outcome and one MDT survey is utilized to measure the second outcome. Caregivers are asked to complete an initial survey at the end of their first visit to the CAC and then caregivers are asked to complete a follow-up survey two months later to provide feedback on their experiences with the CAC over that two-month period. MDT Surveys are given to all team members twice a year, approximately 6-months apart, to give feedback on the current functioning of the team across all cases.” **For the complete report from NCA, please refer to the following link:**

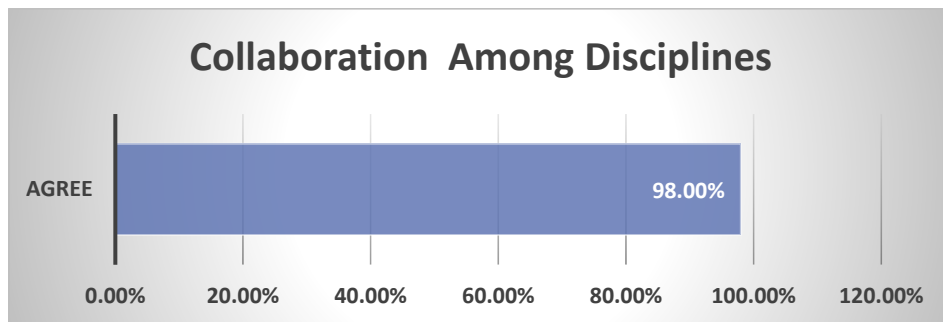

<http://www.nationalchildrensalliance.org/sites/default/files/downloads/OMS-National-Report-2016.pdf>

In Vermont, the caregiver surveys remain at a lower than optimal rate of return and therefore do not provide reliable data. Efforts are underway to address this problem. The feedback received from clients has been positive, but the small number of respondents limits the ability to draw any meaningful conclusions. The response by multidisciplinary team members has been strong with all twelve SIUs reporting survey completion. Four of survey questions are portrayed below:

Members of the multidisciplinary team demonstrate respect for the perspectives and informational needs of other team members throughout the process:

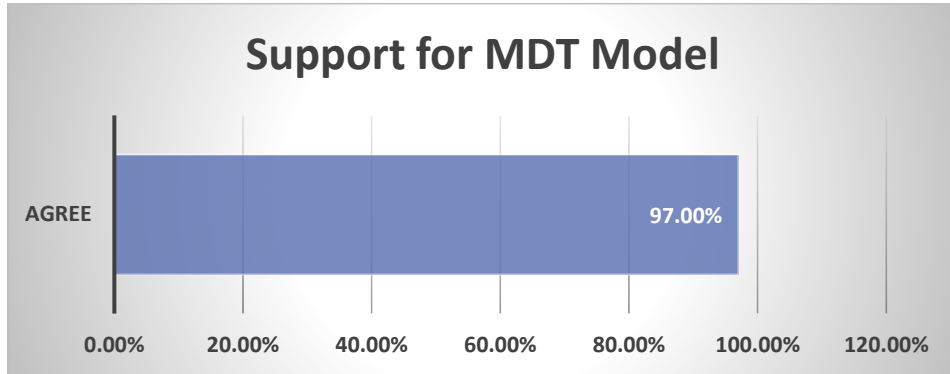

The Children's Advocacy Center (CAC) Model fosters collaboration:

I believe the clients served through the Center benefit from the collaborative approach of our multidisciplinary team:

My supervisor/agency is supportive of the CAC concept and the work of the multidisciplinary team:

The use of OMS provides feedback for the individual teams to assess the health of their group and to identify areas which require action steps for improvement. This serves as another example of the value added by the combination of SIU and CAC efforts. Many the SIUs have used the feedback from the MDT surveys to address issues that can impact services provided to clients. Comparisons can be made among Vermont programs, as well as with regional and national data.

SUMMARY

Although the maturation of each SIU is still evolving, the citizens of the state have access to the specialized services offered by the SIU model, regardless of geographic location. The goal remains to strengthen the operations of each SIU for consistency throughout the state.

Early on, the SIU Grants Program partnered SIU operations with existing Child Advocacy Centers (CAC) as a means of leveraging mutually beneficial aspects of each endeavor. One of the key aspects of that arrangement has been the CAC accreditation process. The National Children's Alliance (NCA) is a nationwide organization which provides for the objective review of CAC structure and operation. The multi-disciplinary team approach of the CAC organization is the very same model upon which the SIUs are based.

Vermont currently has seven (7) fully accredited CACs (with active SIUs), with another five (5) CACs (with active SIUs) having an associate level status denoting their ongoing efforts to achieve full accreditation. The goal of the accreditation process is to have an independent, objective review of unit operations to ensure appropriate structure and functionality. Access to this feature is possible due to the close working relationship between the SIU Grants Program and the Vermont Children's Alliance (which is the VT chapter sanctioned by the NCA). Accreditation status is one of the performance measures used to assess the functionality of each SIU.

Established SIUs provide a one-stop opportunity for victims and families to receive, or to access, specialized child interviewing techniques, medical and mental health services, and a variety of victim support services. Law enforcement, DCF, and prosecutors are active partners working within the SIUs to provide for the best possible victim support, even if court action is not possible.

Law enforcement participation is still dependent upon continued grant funding to support the presence of an SIU-dedicated investigator from local or county police agencies. Current funding supports eleven grant awards which provide investigators in ten counties. Two additional reimbursement-based awards are provided to Essex County and Grand Isle County for investigative services provided by the Sheriff Departments in those counties (mandated in statute). For now, Chittenden County and Franklin County are the only two counties not reliant upon SIU Grant funding for law enforcement investigators.

The specialized services provided by, or through, the SIUs (CACs) are also another significant performance measure for assessment. A main premise behind the establishment of the SIUs was to provide for a safe, victim-friendly environment that could provide for the needs of victims in a supportive manner. Adoption of the *Outcome Measurement System* (a feature available through NCA membership) provides feedback from clients and SIU/CAC partners to measure this component. The Outcome

Measurement System (OMS) was instituted in early 2015 and is now adopted by each of the units.

Training efforts in 2017 focused on continued development of interviewing skills for investigators as well as specialized training for prosecutors and victim advocates. The SIU Grants Program, in collaboration with the Vermont Children's Alliance, continues to work in close collaboration with other partners to strengthen the response to sexual and physical abuse in Vermont.
