# UNIVERSAL SCHOOL MEALS

## A Host of Benefits For Our State!

### Good for Kids' Health and Learning

- Well-fed children perform better in school
- Improved nutrition means fewer sick days and better behavior
- School meals are a place to develop healthy eating habits

### Good for the Economy

- Healthier children become healthier adults
- Healthy, well-fed children translate into lower healthcare costs and improved performance in our knowledge economy

### Good for Making Schools a More Welcoming Place

- Universal meals mean no child is labeled 'low-income'
- Reduced stigma leads to wider participation in school meals

## Two USDA Pathways to Funding Universal School Meals

### Provision 2:

This long-standing provision is available to any school for providing breakfast, lunch, or both at no charge. Reimbursement is based on meal participation rates at the time the school enrolls.

### Community Eligibility Provision:

This new provision provides breakfast and lunch to all students at no charge. Reimbursement is based on the percentage of categorically eligible students (children in households receiving 3SquaresVT or Reach Up; foster, homeless, and migrant children; children in Head Start)

Watch the Universal Meals video and learn more  
about these provisions by visiting
