Agency of Administration

TO: General Assembly

FROM: Beth Fastiggi, Commissioner Department of Human Resources *BF*

DATE: January 13, 2017

SUBJECT: Temporary Employee Report – Calendar Year 2017

The enclosed report on temporary employees in calendar year 2017 is submitted in accordance with 3 V.S.A. § 331(c)1. The report identifies by department the total hours worked by each temporary employee during calendar year 2017.

Total number of temporary employees who have worked 1,280 hours in the prior calendar year; or in excess of 1,280 hours.

- 74 individuals worked in excess of 1,280 hours during the calendar year.
- 1 individual worked exactly 1,280 hours during the calendar year

The enclosed report shows:

- 1,956 individuals were employed as temporary employees at some point in time in the calendar year. Of the 1,956 individuals, 144 worked in multiple positions.
- The data in the report sorted first by department and then to show those employees working the greatest number of hours. Current status of the temporary employee if they are no longer serving in a temporary position is noted.
- We note if an employee held multiple temporary positions to determine the total hours worked by employee in all jobs.
- We also indicate our recommendation regarding the future of the position for those positions held by employees working 1,280 or more hours.
- If a temporary role may be appropriate for conversion to a classified position it is the intent of the Administration to utilize the position pool process or transfer and convert from existing vacancies to create the classified position.
- Several departments and agencies have legitimate needs to utilize seasonal and fill-in temporary employees. Seasonal employees staff a variety of activities that are not full time/full year activities, such as emergency snow plow drivers,

historic site caretakers, and tax season support staff. Fill in temporary positions are essential to maintaining safe and appropriate staffing levels by filling in for classified staff on leave or to cover vacancies until permanent staff are hired. It is particularly important to utilize temporary staffing in 24/7 facilities and operations such as correctional facilities, emergency call centers, and medical facilities.

- Due to the timing of the development of this report and the final pay-period of the year, we have included 25 out of 26 pay periods.
- In 2018, the Department of Human Resources proposes to improve the process for utilization of Temporary Employees by assuring all appointing authorities are educated on the statutory requirements governing the use of temporary employees.
