**Subject:** Tuesday evening, April 10th the Senate Economic Development Committee is holding a public hearing on H.196 from 5-7pm in Room 11 of the State House.

Hi There!

I would like to submit the following comment to be made at the Senate Economic Development Committee hearing Tuesday April 10, 2018 from 5 - 7:

Vermonters should not have to choose between caring for a loved one and financial security. A statewide paid family and medical leave insurance program would protect child and maternal health, build economic security for women and families, level the playing field for small businesses, and attract young people and families to the state. Please make this happen.

Thank you,

Giocondo Susini
