Subject: H.764- Data Brokers

Greetings Senator Soucy,

I hope you had a nice weekend. I see your schedule has filled up quite a bit already this week. My client, IHS Markit Automotive (formerly R.L. Polk) would like to submit comments for the record. I would like to read them in if possible, but if you are pressed for time, we can just submit them to Kayla for the Committee to read as well. We are in line with other industry parties in that we wish to take out the definition of Personal Information.

Thank you,

Bridget A. Morris
