

Ragav Pokhrel – 8th grade
Hunt Middle School After School Program
in collaboration with the Sara Holbrook Community Center

I love afterschool and summer program because they are really fun to do and I have a great time with my friends. Staying at the afterschool programs is a good choice because there is nothing to do at home and it's really fun! I like to have fun and I love making YouTube vidoes for my audience. I am also doing an afterschool program where we make videos for the whole school. I really like that I get to spend time with my friends if they go to program too. We get to do fun things together that you can't do while you're at home. We go places like hiking, swimming, biking, kayaking and sailing. It's great because we get to learn and have fun at the same time. Last summer, I took a pre-algebra class that taught me the basics of pre-algebra in a fun way. It was a smaller class that helped me learn faster and I loved the teachers and being with my friends. It has helped me do well in math this year. I like to stay at afterschool instead of going home and doing nothing because I love meeting up and spending time with friends and learning new things.

A handwritten signature in black ink, appearing to be 'Ragav Pokhrel', with a long horizontal line extending to the right.
