Subject: Fwd: Unused Prescription Drug Repository Program - RESPONSE REQUESTED [DRM-ID.FID923644] **External**

Good afternoon Senators,

I wanted to share with you Dartmouth's response on their participation with unused prescription drug repository programs.

If you have additional questions I am happy to forward those on.

Lucie Garand

Hi Lucie,

D-H Pharmacy has provided this service through the D-H Rx Connects Unused Prescription Drug Program since July 2, 2014. In the last three years, we have provided over \$157,740 of pharmaceutical care for patients living in 7 of the 14 counties in Vermont and 8 out of the 10 counties in NH. We work closely with the Office of Care Management to identify the patients in need and distribute according to the guidelines set by the NH Board of Pharmacy. (We also have internal policy.)

Feel free to email with any additional questions you may have. I'm sure our pharmacist can provide additional info.

Matthew
