

Susan Barrett
GMCB
3/31/2017

Here is additional information regarding the three charges of Primary Care Advisory Group and progress:

(1) measure alignment: Pat Jones, GMCB Staff, presented act 112 report to group - members provided feedback. Pat also created a workplan for the "measure alignment council" which was deemed unnecessary per 2/15 meeting. While the group is to sunset on July 1, 2018, members have discussed continuing their conversation beyond that date.

(2) Prior auth: Dr. Mark Peluso has championed this effort. There has been robust discussion at the past few meetings in this regard - lots of support from all provider types on eliminating prior auth all together. Dr. Peluso has worked on a draft proposal and distributed to the group for feedback.

(3) uniform discharge summary: Dr. Tim Tanner has championed this effort - he has received feedback on a draft and has incorporated Joint Commission and CMS standards as suggested by GMCB staff.
