

**H.926 (Vetoed). Conservation and land development; land use; natural resources;
Act 250**

This bill would have made changes to Act 250, 10 V.S.A. chapter 151, regarding recreational trails and forest blocks and connecting habitat. It would have added a new, temporary jurisdictional trigger for the construction of improvements for a Vermont Trail System trail disturbing 10 acres of land. It also would have added a new subcriterion to the 10 criteria of Act 250, protecting forest blocks and connecting habitat.

Vetoed by the Governor: October 5, 2020
Effective Date: Not applicable
