As used in this subchapter:

(1) “Abuse” has the same meaning as in 15 V.S.A. § 1101.

(2) “Protected tenant” means a tenant who is:

   (A) a victim of abuse, sexual assault, or stalking;

(3) “Sexual assault” and “stalking” have the same meaning as in 12 V.S.A. § 5131.

§ 4472. RIGHT TO TERMINATE RENTAL AGREEMENT

(a) Notwithstanding a contrary provision of a rental agreement or of subchapter 2 of this chapter, a protected tenant may terminate a rental agreement pursuant to subsection (b) of this section without penalty or liability if he or she reasonably believes it is necessary to vacate a dwelling unit:

   (1) based on a fear of imminent harm to any protected tenant due to abuse, sexual assault, or stalking; or

   (2) if any protected tenant was a victim of sexual assault that occurred on the premises within the six months preceding the date of his or her notice of termination.

(b) Not less than 30 days before the date of termination, the protected tenant shall provide to the landlord:

   (1) a written notice of termination; and

request that a landlord change the locks of a dwelling unit within 48 hours
following the request:

   (A) based on a fear of imminent harm to any protected tenant due to
abuse, sexual assault, or stalking; or

   (B) if any protected tenant was a victim of sexual assault that
occurred on the premises within the six months preceding the date of his or her
request.

(2) If the perpetrator of abuse, sexual assault, or stalking is also a tenant
in the dwelling unit, the protected tenant shall include with his or her request a
copy of a court order that requires the perpetrator to leave the premises.

(3) If the landlord changes the locks as requested, the landlord shall
provide a key to the new locks to each tenant of the dwelling unit, not
including the perpetrator of the abuse, sexual assault, or stalking who is subject
to a court order to leave the premises.

(4) If the landlord does not change the locks as requested, the protected
tenant may change the locks without the landlord’s prior knowledge or
permission, provided that the protected tenant shall:

   (A) ensure that the new locks, and the quality of the installation,
equal or exceed the quality of the original;

(B) notify the landlord of the change within 24 hours of installation; and

(C) provide the landlord with a key to the new locks.

(5) Unless otherwise agreed to by the parties, a protected tenant is responsible for the costs of installation of new locks pursuant to this section.

(6)(A) A protected tenant may request permission of a landlord to install additional security measures on the premises, including a security system or security camera.

(B) A protected tenant:

(i) shall submit his or her request not less than seven days prior to installation;

(ii) shall ensure the quality and safety of the security measures and of their installation;

(iii) is responsible for the costs of installation and operation of the security measures; and

S. 18

An act relating to consumer justice enforcement

Rep. Colburn of Burlington, for the Committee on Judiciary, recommends that the House propose to the Senate that the bill be amended by striking all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. 9 V.S.A. chapter 152 is added to read:

CHAPTER 152. MODEL STATE CONSUMER JUSTICE ENFORCEMENT ACT; STANDARD-FORM CONTRACTS

§ 6051. UNCONSCIONABLE TERMS IN STANDARD-FORM CONTRACTS PROHIBITED

(a) Unconscionable terms. There is a rebuttable presumption that the following contractual terms are substantively unconscionable when included in a standard-form contract to which only one of the parties to the contract is an individual and that individual does not draft or have a meaningful opportunity to negotiate the contract:
(1) A requirement that resolution of legal claims takes place in an inconvenient venue. As used in this subdivision, “inconvenient venue” for State law claims means a place other than the state in which the individual resides or the contract was consummated, and for federal law claims means a place other than the federal judicial district where the individual resides or the contract was consummated. Notwithstanding this subdivision, a standard-form contract may include a term requiring that resolution of legal claims takes place in a State or federal court in Vermont.

(2) A waiver of the individual’s right to seek punitive damages as provided by law.

(3) Pursuant to 12 V.S.A. § 465, a provision that limits the time in which an action may be brought under the contract or that waives the statute of limitations.

(4) A requirement that the individual pay fees and costs to bring a legal claim substantially in excess of the fees and costs that this State’s courts require to bring such a State law claim or that federal courts require to bring such a federal law claim.

(b) Relation to common law and the Uniform Commercial Code. In determining whether the terms described in subsection (a) of this section are unenforceable, a court shall consider the principles that normally guide courts in this State in determining whether unconscionable terms are enforceable. Additionally, the common law and Uniform Commercial Code shall guide courts in determining the enforceability of unfair terms not specifically identified in subsection (a) of this section.

(c) Severability.

(1) If a court finds that a standard-form contract contains an illegal or unconscionable term, the court shall:

(A) refuse to enforce the entire contract or the specific part, clause, or provision containing the illegal or unconscionable term; or

(B) so limit the application of the illegal or unconscionable term or the clause containing such term as to avoid any illegal or unconscionable result.

(2) In performing its analysis under this subsection (c), the court may consider the actual purposes of the contracting parties and whether severing the term would create an incentive for contract drafters to include similar illegal or unconscionable terms.

(d) Unfair and deceptive act and practice.
(1) In an underlying legal dispute between the drafting and nondrafting parties in which the drafting party seeks to enforce one or more terms identified in subsection (a) of this section, and upon a finding that such terms are actually unconscionable, the court may also find that the drafting party has thereby committed an unfair and deceptive practice in violation of section 2453 of this title and may order up to $1,000.00 in statutory damages per violation and an award of reasonable costs and attorney’s fees.

(2) Each term found to be unconscionable pursuant to subsection (a) of this section shall constitute a separate violation of this section.

(e) Limitation on applicability. This section shall not apply to the following contracts:

(1) A contract to which one party is:
    (A) regulated by the Vermont Department of Financial Regulation; or
    (B) a financial institution as defined by 8 V.S.A. § 11101(32) or a credit union as defined by 8 V.S.A. § 30101(5).

(2) A contract for the nondrafting party’s enrollment or participation in a recreational activity, sport, or competition.

(3) A motor vehicle retail installment contract subject to chapter 59 of this title.

Sec. 2. EFFECTIVE DATE

This act shall take effect on October 1, 2020.

(B) “Grow” may be used interchangeably with the word “produce.”

§ 922. WATER QUALITY IMPLEMENTATION PLANNING AND TARGETS

(a) After listing a water as impaired on the list of waters required by 33 U.S.C. § 1313(d), the Secretary shall include in the implementation plan for the water a strategy for returning the water to compliance with the Vermont Water Quality Standards. With respect to a water that is impaired due to sources outside the State or if there is insufficient data or no data available to quantify reductions required by this subchapter, the Secretary shall not be required to implement the requirements of this subchapter; however, the Secretary shall provide an alternate strategy for attaining water quality standards in the implementation plan for the water. For waters determined to be subject to this subchapter, the Secretary shall include the following in an implementation plan:

(1) An evaluation of whether implementation of existing regulatory programs will achieve water quality standards in the impaired water. If the Secretary determines that existing regulatory programs will not achieve water quality standards, the Secretary shall determine the amount of additional pollutant reduction necessary to achieve water quality standards in that water. When making this determination, the Secretary may express the pollutant reduction in a numeric reduction or through defining a clean water project that must be implemented to achieve water quality standards.

(2) An allocation of the pollutant reduction identified under subdivision (a)(1) of this section to each basin and the clean water service provider assigned to that basin pursuant to subsection 924(a) of this title. When making this allocation, the Secretary shall consider the sectors contributing to the water quality impairment in the impaired water’s boundaries and the contribution of the pollutant from regulated and nonregulated sources within the basin. Those allocations shall be expressed in annual pollution reduction goals and five-year pollution reduction targets as checkpoints to gauge progress and adapt or modify as necessary.

(3) A determination of the standard cost per unit of pollutant reduction. The Secretary shall publish a methodology for determining standard cost pollutant reductions. The standard cost shall include the costs of project identification, project design, and project construction.

(b)(1) The Secretary shall conduct the analysis required by subsection (a) of this section for previously listed waters as follows:

(A) For phosphorous in the Lake Champlain watershed, not later than November 1, 2021.
(B) For phosphorous in the Lake Memphremagog watershed, not later than November 1, 2022.

(2) By not later than November 1, 2023, the Secretary shall adopt a schedule for implementing the requirements of this subchapter in all other previously listed impaired waters, including Lake Carmi, not set forth in subdivision (1) of this subsection.

(c) When implementing the requirements of this section, the Secretary shall follow the type 3 notice process established in section 7714 of this title.

§ 923. QUANTIFICATION OF POLLUTION REDUCTION; CLEAN WATER PROJECTS

(a) After listing a water as impaired on the list of waters required by 33 U.S.C. § 1313(d), the Secretary shall publish a methodology for calculating pollution reduction values associated with a clean water project in that water. When establishing a pollutant reduction value, the Secretary shall consider pollution reduction values established in the TMDL; pollution reduction values established by other jurisdictions; pollution reduction values recommended by organizations that develop pollutant reduction values for a clean water project; applicable monitored data with respect to a clean water project, if available; modeled data, if available; or a comparison to other similar projects or programs if no other data on a pollution reduction value or design life exists. Pollution reduction values established by the Secretary shall be the exclusive method for determining the pollutant reduction value of a clean water project.

(b) After listing a water as impaired on the list of waters required by 33 U.S.C. § 1313(d), the Secretary shall publish a methodology for establishing a design life associated with a clean water project. The design life of a clean water project shall be determined based on a review of values established in other jurisdictions, values recommended by organizations that regularly estimate the design life of clean water projects, actual data documenting the design life of a practice, or a comparison to other similar practices if no other data exists. A design life adopted by the Secretary shall be the exclusive method for determining the design life of a best management practice or other control.

(c)(1) If a person is proposing a clean water project for which no pollution reduction value or design life exists for a listed water, the Secretary shall establish a pollution reduction value or design life for that clean water project within 60 days following a request from the person proposing the clean water project. A pollution reduction value or design life established under this subdivision shall be based on a review of pollution reduction values
established in the TMDL; pollution reduction values or design lives established by other jurisdictions; pollution reduction values or design lives recommended by organizations that develop pollutant reduction values or design lives for a clean water project; applicable monitored data with respect to a clean water project, if available; modeled data, if available; actual data documenting the design life of a clean water project; or a comparison to other similar projects or programs if no other data on a pollution reduction value or design life exists. Any estimate developed under this subsection by the Secretary shall be posted on the Agency of Natural Resources’ website.

(2) Upon the request of a clean water service provider, the Secretary shall evaluate a proposed clean water project and issue a determination as to whether the proposed clean water project is eligible to receive funding as a part of a Water Quality Restoration Formula Grant awarded by the State pursuant to section 925 of this title.

(d)(1) The Secretary shall conduct the analysis required by subsections (a) and (b) of this section for clean water projects and design lives related to phosphorous not later than November 1, 2021.

(2) By not later than November 1, 2023, the Secretary shall adopt a schedule for implementing the requirements of subsections (a) and (b) of this section for clean water projects and design lives related to all other impairments not listed under subdivision (1) of this subsection.

(e) The Secretary shall periodically review pollution reduction values and design lives established under this section at least every five years to determine the adequacy or accuracy of a pollution reduction value or design life.

(f)(1) When implementing the requirements of subsections (a) and (b) of this section, the Secretary shall follow the type 3 notice process established in section 7714 of this title.

(2) When implementing the requirements of subsection (c) of this section, the Secretary shall follow the type 4 notice process in section 7715 of this title.

§ 924. CLEAN WATER SERVICE PROVIDER; RESPONSIBILITY FOR CLEAN WATER PROJECTS

(a) Clean water service providers; establishment.

(1) On or before November 1, 2020, the Secretary shall adopt rules that assign a clean water service provider to each basin in the Lake Champlain and Lake Memphremagog watersheds for the purposes of achieving pollutant reduction values established by the Secretary for the basin and for
identification, design, construction, operation, and maintenance of clean water projects within the basin. For all other impaired waters, the Secretary shall assign clean water service provider no later than six months prior to the implementation of the requirements of this subchapter scheduled by the Secretary under subdivision 922(b)(2) of this title. The rulemaking shall be done in consultation with regional planning commissions, natural resource conservation districts, watershed organizations, and municipalities located within each basin.

(2) An entity designated as a clean water service provider shall be required to identify, prioritize, develop, construct, verify, inspect, operate, and maintain clean water projects in accordance with the requirements of this subchapter.

(3) The Secretary shall adopt guidance on a clean water service provider’s obligation with respect to implementation of this chapter. The Secretary shall provide notice to the public of the proposed guidance and a comment period of not less than 30 days. At a minimum, the guidance shall address the following:

(A) how the clean water service provider integrates prioritizes and selects projects consistent with the applicable basin plan, including how to account for the co-benefits provided by a project;

(B) minimum requirements with respect to selection and agreements with subgrantees;

(C) requirements associated with the distribution of administrative costs to the clean water service provider and subgrantees;

(D) Secretary’s assistance to clean water service providers with respect to their maintenance obligations pursuant to subsection (c) of this section; and

(E) the Secretary’s strategy with respect to accountability pursuant to subsection (f) of this section.

(4) In carrying out its duties, a clean water service provider shall adopt guidance for subgrants consistent with the guidance from the Secretary developed pursuant to subdivision (a)(3) of this section that establishes a policy for how the clean water service provider will issue subgrants to other organizations in the basin, giving due consideration to the expertise of those organizations and other requirements for the administration of the grant program. The subgrant guidance shall include how the clean water service provider will allocate administrative costs to subgrantees for project implementation and for the administrative costs of the basin water quality
council. The subgrant guidance shall be subject to the approval of the Secretary and basin water quality council.

(5) When selecting clean water projects for implementation or funding, a clean water service provider shall prioritize projects identified in the basin plan for the area where the project is located and shall consider the pollutant targets provided by the Secretary and the recommendations of the basin water quality council.

(b) Project identification, prioritization, selection. When identifying, prioritizing, and selecting a clean water project to meet a pollutant reduction value, the clean water service provider shall consider the pollution reduction value associated with the clean water project, the co-benefits provided by the project, operation, and maintenance of the project, conformance with the tactical basin plan, and other water quality benefits beyond pollution reduction associated with that clean water project. All selected projects shall be entered into the watershed projects database.

(c) Maintenance responsibility. A clean water service provider shall be responsible for maintaining a clean water project or ensuring the maintenance for at least the design life of that clean water project. The Secretary shall provide funding for maintenance consistent with subdivision 1389(e)(1)(A) of this title.

(d) Water quality improvement work. If a clean water service provider achieves a greater level of pollutant reduction than a pollutant reduction goal or five-year target established by the Secretary, the clean water service provider may carry those reductions forward into a future year. If a clean water service provider achieves its pollutant reduction goal or five-year target and has excess grant funding available, a clean water service provider may:

(1) carry those funds forward into the next program year;

(2) use those funds for other eligible project;

(3) use those funds for operation and maintenance responsibilities for existing constructed projects;

(4) use those funds for projects within the basin that are required by federal or State law; or

(e) Reporting. A clean water service provider shall report annually to the Secretary. The report from clean water service providers shall be integrated
into the annual clean water investment report, including outcomes from the work performed by clean water service providers. The report shall contain the following:

(1) a summary of all clean water projects completed that year in the basin;

(2) a summary of any inspections of previously implemented clean water projects and whether those clean water projects continue to operate in accordance with their design;

(3) all administrative costs incurred by the clean water service provider;

(4) a list of all of the subgrants awarded by the clean water service provider in the basin; and

(5) all data necessary for the Secretary to determine the pollutant reduction achieved by the clean water service provider during the prior year.

(f) Accountability for pollution reduction goals. If a clean water service provider fails to meet its allocated pollution reduction goals or its five-year target or fails to maintain previously implemented clean water projects the Secretary shall take appropriate steps to hold the clean water service provider accountable for the failure to meet pollution reduction goals or its five-year target. The Secretary may take the following steps:

(1) enter a plan to ensure that the clean water service provider meets current and future year pollution reduction goals and five-year targets; or

(2) initiate rulemaking to designate an alternate clean water service provider as accountable for the basin.

(g) Basin water quality council.

(1) A clean water service provider designated under this section shall establish a basin water quality council for each assigned basin. The purpose of a basin water quality council is to establish policy and make decisions for the clean water service provider regarding the most significant water quality impairments that exist in the basin and prioritizing the projects that will address those impairments based on the basin plan. A basin water quality council shall also participate in the basin planning process.

(2) A basin water quality council shall include, at a minimum, the following:

(A) two persons representing natural resource conservation districts in that basin, selected by the applicable natural resource conservation districts;
(B) two persons representing regional planning commissions in that
basin, selected by the applicable regional planning commission;

conservation organization selected by the conservation organization in
consultation with the clean water service provider; and

(E) two persons representing from each municipality within the
basin, selected by the clean water service provider in consultation with
municipalities in the basin.

(3) The designated clean water service provider and the Agency of
Natural Resources shall provide technical staff support to the basin water
quality council. The clean water service provider may invite support from
persons with specialized expertise to address matters before a basin water
quality council, including support from the University of Vermont Extension,
staff of the Agency of Natural Resources, staff of the Agency of Agriculture,
Food and Markets, staff of the Agency of Transportation, staff from the
Agency of Commerce and Community Development, the Natural Resource
Conservation Service, U.S. Department of Fish and Wildlife, and U.S. Forest
Service.

RESTORATION FORMULA GRANT PROGRAM

The Secretary shall administer a Water Quality Restoration Formula Grant
Program to award grants to clean water service providers to meet the pollutant
reduction requirements under this subchapter. The grant amount shall be based

provider multiplied by the standard cost for pollutant reduction including the
costs of administration and reporting. Not more than 15 percent of the total
grant amount awarded to a clean water service provider shall be used for
administrative costs.

§ 926. WATER QUALITY ENHANCEMENT GRANT PROGRAM

The Secretary shall administer a Water Quality Enhancement Grant
