

No. 204. An act relating to ensuring a coordinated public health approach to addressing childhood adversity and promoting resilience.

(S.261)

It is hereby enacted by the General Assembly of the State of Vermont:

* * * Purpose and Status Update * * *

Sec. 1. PURPOSE

It is the purpose of this act to ensure a consistent family support system by enhancing opportunities to build resilience among families throughout the State that are experiencing the causes or symptoms of childhood adversity. While significant efforts to provide preventative services are already well under way in many parts of the State, better coordination is necessary to ensure that gaps in services are addressed and redundancies do not occur. In this regard, this act builds on the significant work advanced in 2017 Acts and Resolves No. 43, including the principles for Vermont's trauma-informed system of care. The General Assembly supports a public health approach to address childhood adversity wherein interventions pertaining to socioeconomic determinants of health are employed in a manner that has the broadest societal reach and in which specialized interventions are directed to individuals with the most acute need.

Sec. 2. STATUS REPORT; COMPLETION OF ACT 43 REPORT

On or before November 1, 2018, the Agency of Human Services' Director of Trauma Prevention and Resilience Development shall submit to the Chairs of the House Committee on Human Services and the Senate Committee on

Health and Welfare and to any existing Advisory Council on Child Poverty and Strengthening Families a status report on the Agency's methodology and progress in preparing the response plan required pursuant to 2017 Acts and Resolves No. 43, Sec. 4, including any preliminary findings. The status report shall include information as to the Agency's progress in implementing trauma-informed training opportunities for child care providers.
