depend on saturated or seasonally saturated soil conditions for growth and reproduction. Such areas include but are not limited to marshes, swamps, sloughs, potholes, fens, river and lake overflows, mud flats, bogs, and ponds, but excluding such areas as grow food or crops in connection with farming activities. See 10 V.S.A. § 902(5).

**2.42 Wetland Hydrology** means the sum total of wetness characteristics in areas that are inundated by water or which have hydric soils that are saturated or seasonally saturated for a sufficient duration to support significant vegetation or aquatic life. Wetness characteristics shall include the hydrologic cycle, water table levels, water chemistry, hydrologic budget, and ground water flow patterns. Typical indicators include: evidence of inundation, drift lines, sediment deposits, and morphological plant adaptations.

## SECTION 3: EXEMPTIONS; IDENTIFICATION OF WETLANDS

### 3.1 Exemptions

The following shall not be regulated as wetlands under the Vermont Wetland Rules, but may be subject to regulation under federal law**:**

#### a. Farming Exemption

(1) Statutory guidance

Section 902(5) of 10 V.S.A. defines wetlands to exclude "such areas as grow food or crops in connection with farming activities." Section 905b(18)(C) of 10 V.S.A. requires that any rules "that restrain agricultural activities" must have the consent of the Secretary of the Agency of Agriculture, Food and Markets.

(2) Definition

Farming activities means the cultivation or other use of land for growing food, fiber, Christmas trees, maple sap, or horticultural and orchard crops; and the growing of food and crops in connection with the raising, feeding, or management of livestock, poultry, equines, fish farms, or bees for profit.

(3) Limitation on Exemption.

The farming exemption shall apply to all areas used to grow food or crops in connection with farming activities including areas in ordinary rotation, as of the effective date of these rules. The exemption will expire whenever the area is no longer used to grow food or crops or in ordinary rotation.

#### b. Existing Constructed Features
