

COMPARE WEEKLY AMOUNTS FROM WORKING WITH 20% BENEFITS AND UNEMPLOYMENT BENEFITS

Basic information

Regular unemployment benefit = (2 highest earning quarters)/45, or about 57% of worker's average weekly wage

maximum weekly unemployment benefit is \$513 per week; corresponds to \$22.20/hour for a full-time worker, or \$46,170/year

assume benefits start week of March 29, continue for 39 weeks through end of Dec 2020 (includes extra 13 weeks)

CARES Act extra unemployment benefit = \$600 per week, not dependent on benefit level

assume start week of March 29, end week of July 26; 18 weeks maximum

Suppose a worker compares his/her weekly wages plus benefits when working to the weekly UE benefit after quitting the job

Note: We are comparing weekly dollar amounts including benefits equal to 20% of wages, but not other factors such as job security, the temporary nature of the extra unemployment benefit, and other worker benefits if available
