

**S.40. An Act Relating to Testing and Remediation of Lead in Drinking Water of Schools and Child Care Facilities**

<p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p>Sec. 1. 18 V.S.A. chapter 24A is added to read:</p> <p style="text-align: center;"><u>CHAPTER 24A. LEAD IN DRINKING WATER OF SCHOOLS AND CHILD CARE FACILITIES</u></p> <p><u>§ 1241. PURPOSE</u></p> <p><u>The purpose of this chapter is to require all school districts, supervisory unions, independent schools, and child care providers in Vermont to:</u></p> <p style="padding-left: 40px;"><u>(1) test drinking water in their buildings and child care facilities for lead contamination; and</u></p> <p style="padding-left: 40px;"><u>(2) develop and implement an appropriate response or lead remediation plan when sampling indicates unsafe lead levels in drinking water at a school or child care facility.</u></p> <p><u>§ 1242. DEFINITIONS</u></p> <p><u>As used in this chapter:</u></p> <p style="padding-left: 40px;"><u>(1) “Action level” means <b>three</b> parts per billion (ppb) of lead.</u></p> <p style="padding-left: 40px;"><u>(2) “Building” means any structure, facility, addition, or wing that may be occupied or used by children or students.</u></p> <p style="padding-left: 40px;"><u>(3) “Child care provider” has the same meaning as in 33 V.S.A. § 3511.</u></p> <p style="padding-left: 40px;"><u>(4) “Child care facility” or “facility” has the same meaning as in 33 V.S.A. § 3511.</u></p> <p style="padding-left: 40px;"><u>(5) “Commissioner” means the Commissioner of Health.</u></p> <p style="padding-left: 40px;"><u>(6) “Department” means the Department of Health.</u></p> <p style="padding-left: 40px;"><u>(7) “Drinking water” has the same meaning as in 10 V.S.A. § 1671.</u></p>	<p>Sec. 1. 18 V.S.A. chapter 24A is added to read:</p> <p style="text-align: center;"><u>CHAPTER 24A. LEAD IN DRINKING WATER OF SCHOOLS AND CHILD CARE FACILITIES</u></p> <p><u>§ 1241. PURPOSE</u></p> <p><u>The purpose of this chapter is to require all school districts, supervisory unions, independent schools, and child care providers in Vermont to:</u></p> <p style="padding-left: 40px;"><u>(1) test drinking water in their buildings and child care facilities for lead contamination; and</u></p> <p style="padding-left: 40px;"><u>(2) develop and implement an appropriate response or lead remediation plan when sampling indicates unsafe lead levels in drinking water at a school or child care facility.</u></p> <p><u>§ 1242. DEFINITIONS</u></p> <p><u>As used in this chapter:</u></p> <p style="padding-left: 40px;"><u>(1) “Action level” means <b>five</b> parts per billion (ppb) of lead.</u></p> <p style="padding-left: 40px;"><u>(2) “Alternative water source” means:</u></p> <p style="padding-left: 80px;"><u>(A) water from an outlet within the building that is below the action level; or</u></p> <p style="padding-left: 80px;"><u>(B) containerized, bottled, or packaged drinking water.</u></p> <p style="padding-left: 40px;"><u>(3) “Building” means any structure, facility, addition, or wing that may be occupied or used by children or students.</u></p> <p style="padding-left: 40px;"><u>(4) “Child care provider” has the same meaning as in 33 V.S.A. § 3511.</u></p> <p style="padding-left: 40px;"><u>(5) “Child care facility” or “facility” has the same meaning as in 33 V.S.A. § 3511.</u></p> <p style="padding-left: 40px;"><u>(6) “Commissioner” means the Commissioner of Health.</u></p> <p style="padding-left: 40px;"><u>(7) “Department” means the Department of Health.</u></p> <p style="padding-left: 40px;"><u>(8) “Drinking water” has the same meaning as in 10 V.S.A. § 1671.</u></p>

<p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p><u>(8) “First-draw sample” means a 250 milliliter sample of drinking water that:</u></p> <p style="padding-left: 40px;"><u>(A) has been standing in plumbing pipes at least eight hours;</u></p> <p style="padding-left: 40px;"><u>(B) is collected without flushing the tap; and</u></p> <p style="padding-left: 40px;"><u>(C) is conducted before a building or child care facility opens or is in use.</u></p> <p><u>(9) “Flush sample” means a sample of drinking water from an outlet that:</u></p> <p style="padding-left: 40px;"><u>(A) is taken from the outlet after the water has run for 30 seconds; and</u></p> <p style="padding-left: 40px;"><u>(B) is conducted before a building or child care facility opens or is in use.</u></p> <p><u>(10) “Independent school” has the same meaning as in 16 V.S.A. § 11.</u></p> <p><u>(11) “Outlet” means a drinking water fixture currently or potentially used for consumption or cooking purposes, including a drinking fountain, ice machine, or a faucet.</u></p> <p><u>(12) “Potable water” means water sufficient for consumption and free from impurities in amounts sufficient to cause disease or harmful physiological effects with the bacteriological, chemical, physical, or radiological quality conforming to applicable rules or standards adopted by the Agency of Natural Resources and the Department of Health.</u></p> <p><u>(13) “School district” has the same meaning as in 16 V.S.A. § 11.</u></p> <p><u>(14) “Supervisory union” has the same meaning as in 16 V.S.A. § 11.</u></p>	<p><u>(9) “Independent school” has the same meaning as in 16 V.S.A. § 11.</u></p> <p><u>(10) “Outlet” means a drinking water fixture currently or reasonably expected to be used for consumption or cooking purposes, including a drinking fountain, ice machine, or a faucet as determined by a school district, supervisory union, independent school, or child care provider.</u></p> <p><u>(11) “School district” has the same meaning as in 16 V.S.A. § 11.</u></p> <p><u>(12) “Supervisory union” has the same meaning as in 16 V.S.A. § 11.</u></p>

<p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p><u>§ 1243. TESTING OF DRINKING WATER</u></p> <p><u>(a) Scope of testing.</u></p> <p><u>(1) Each school district, supervisory union, or independent school in the State shall test drinking water in the buildings it owns, controls, or operates for lead contamination as required under this chapter.</u></p> <p><u>(2) Each child care provider in the State shall test drinking water in a child care facility it owns, controls, or operates for lead contamination as required under this chapter.</u></p> <p><u>(b) Initial sampling.</u></p> <p><u>(1) On or before January 1, 2020, each school district, supervisory union, independent school, or child care provider in the State shall collect a first-draw sample and a flush sample from each outlet in each building or facility it owns, controls, or operates. Sampling shall occur during the school year of a school district, supervisory union, or independent school.</u></p> <p><u>(2) At least five days prior to sampling, the school district, supervisory union, independent school, or child care provider shall notify all staff and all parents or guardians of students directly in writing or by electronic means of:</u></p> <p><u>(A) the scheduled sampling;</u></p> <p><u>(B) the requirements for testing, why testing is required, and the potential health effects from exposure to lead in drinking water;</u></p> <p><u>(C) information regarding how the school district, supervisory union, independent school, or child care provider shall provide notice of the sample results; and</u></p>	<p><u>§ 1243. TESTING OF DRINKING WATER</u></p> <p><u>(a) Scope of testing.</u></p> <p><u>(1) Each school district, supervisory union, or independent school in the State shall collect a drinking water sample from each outlet in the buildings it owns, controls, or operates and shall submit the sample to the Department of Health for testing for lead contamination as required under this chapter.</u></p> <p><u>(2) Each child care provider in the State shall collect a drinking water sample from each outlet in a child care facility it owns, controls, or operates for lead contamination as required under this chapter.</u></p> <p><u>(b) Initial sampling.</u></p> <p><u>(1) On or before December 31, 2020, each school district, supervisory union, independent school, or child care provider in the State shall collect a first-draw sample and a flush sample from each outlet in each building or facility it owns, controls, or operates. Sampling shall occur during the school year of a school district, supervisory union, or independent school.</u></p> <p><u>(2) At least five days prior to sampling, the school district, supervisory union, independent school, or child care provider shall notify all staff and all parents or guardians of students directly in writing or by electronic means of:</u></p> <p><u>(A) the scheduled sampling;</u></p> <p><u>(B) the requirements for testing, why testing is required, and the potential health effects from exposure to lead in drinking water;</u></p> <p><u>(C) information, provided by the Department of Health, regarding sources of lead exposure other than drinking water;</u></p> <p><u>(D) information regarding how the school district, supervisory union, independent school, or child care provider shall provide notice of the sample results; and</u></p>

<p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p><u>(D) how the school district, supervisory union, independent school, or child care provider shall respond to a sample that exceeds the action level.</u></p> <p><u>(3) The Department may adopt a schedule for the initial sampling by school districts, supervisory unions, independent schools, and child care providers.</u></p> <p><u>(c) Continued sampling. After January 1, 2020, each school district, supervisory union, independent school, or child care provider in the State shall sample each outlet in each building or facility it owns, controls, or operates for lead according to a schedule adopted by the Department by rule under section 1247 of this title.</u></p> <p><u>(d) Interim methodology. Prior to adoption of the rules required under section 1247 of this title, sampling under this section shall be conducted according to a methodology established by the Department of Health, provided that the methodology shall be at least as stringent as the sampling methodology provided for under the U.S. Environmental Protection Agency’s 3Ts for Reducing Lead in Drinking Water in Schools.</u></p> <p><u>(e) Waiver.</u></p> <p><u>(1) The Commissioner shall waive the requirement that a school district, supervisory union, independent school, or child care provider sample drinking water under this section upon a finding that the school district, supervisory union, independent school, or child care provider:</u></p> <p><u>(A) completed sampling of all outlets in each building or facility it owns, controls, or operates in the calendar year preceding January 1, 2020;</u></p> <p><u>(B) conducted sampling according to a methodology consistent with the Department methodology established under subsection (d) of this section; and</u></p>	<p><u>(E) how the school district, supervisory union, independent school, or child care provider shall respond to sample results that are at or above the action level.</u></p> <p><u>(3) The Department may adopt a schedule for the initial sampling by school districts, supervisory unions, independent schools, and child care providers.</u></p> <p><u>(c) Continued sampling. Beginning January 1, 2021, each school district, supervisory union, independent school, or child care provider in the State shall sample each outlet in each building or facility it owns, controls, or operates for lead according to a schedule adopted by the Department by rule under section 1247 of this title.</u></p> <p><u>(d) Interim methodology. Prior to adoption of the rules required under section 1247 of this title, sampling under this section shall be conducted according to a methodology established by the Department of Health, provided that the methodology shall be at least as stringent as the sampling methodology provided for under the U.S. Environmental Protection Agency’s 3Ts for Reducing Lead in Drinking Water in Schools and shall include a requirement for a first draw sample and a second flush sample.</u></p> <p><u>(e) Exceptions.</u></p> <p><u>(1) The testing requirements of subsection (b) of this section shall not apply to a school district, supervisory union, independent school, or child care provider that:</u></p> <p><u>(A) completed testing of all outlets in each building or facility it owns, controls, or operates after November 1, 2017;</u></p> <p><u>(B) conducted testing according to a methodology consistent with the Department methodology established under subsection (d) of this section; and</u></p>

<p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p>(C) implemented or scheduled remediation that ensures that drinking water from all outlets does not exceed the action level.</p> <p>(2) A school district, supervisory union, independent school, or child care provider that receives a waiver under this subsection shall be eligible for assistance from the State for the costs of remediation that has been implemented or scheduled as a result of sampling conducted in the calendar year preceding January 1, 2020.</p> <p>(f) Laboratory analysis. The analyses of drinking water samples required under this chapter shall be conducted by the Vermont Department of Health Laboratory or by a certified laboratory under contract to the Department.</p> <p>(g) Application; bottled water. Although the intent of the Vermont General Assembly is to achieve significant reductions in lead levels in all drinking water provided to children by school districts, supervisory unions, independent schools, or child care providers, the acceptable lead level in bottled water is regulated by the U.S. Food and Drug Administration; consequently, bottled water from a vending machine or bottled water from a water dispenser shall be exempt from the requirements of this chapter.</p>	<p>(C)(i) determined no outlet is at or above the action level for lead; or</p> <p>(ii) implemented or scheduled remediation that ensures that drinking water from all outlets is below the action level.</p> <p>(2) A school district, supervisory union, independent school, or child care provider that qualifies for the exception under subdivision (1) of this subsection shall, within 30 days of the effective date of this act, submit a written notice of exception to the Department of Health that shall include the results of testing and a summary of remediation implemented or scheduled.</p> <p>(3) A school district, supervisory union, independent school, or child care provider that qualifies for the exception under subdivision (1) of this subsection shall be eligible for assistance from the State for the costs of remediation.</p> <p>(f) Laboratory analysis. The analyses of drinking water samples required under this chapter shall be conducted by the Vermont Department of Health Laboratory or by a certified laboratory under contract to the Department.</p>

<p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p><u>§ 1244. RESPONSE TO ACTIONABLE LEVEL; NOTICE; REPORTING</u></p> <p><u>If a sample of drinking water under section 1243 of this title indicates an exceedance of the action level at an outlet, the school district, supervisory union, independent school, or child care provider that owns, controls, or operates the building or facility in which the outlet is located shall conduct remediation to eliminate or reduce lead levels in the drinking water from the outlet. In conducting remediation, a school district, supervisory union, independent school, or child care provider shall strive to achieve the lowest level of lead possible in drinking water and, at a minimum, shall:</u></p> <p style="padding-left: 40px;"><u>(1) prohibit use of an outlet that exceeds the action level until a lead remediation plan or other remediation approved by the Commissioner is implemented and:</u></p> <p style="padding-left: 80px;"><u>(A) sampling indicates that lead levels from the outlet are below the action level; or</u></p> <p style="padding-left: 80px;"><u>(B) the outlet is permanently removed and cannot be accessed by any person;</u></p> <p style="padding-left: 40px;"><u>(2) after a lead remediation plan or other approved remediation is implemented, retest the outlet until results indicate that the lead levels are at or below the action level;</u></p> <p style="padding-left: 40px;"><u>(3) provide occupants of the building or child care facility an adequate supply of potable water for drinking and cooking until remediation is performed;</u></p> <p style="padding-left: 40px;"><u>(4) notify all staff and all parents or guardians of students directly of the test results, in writing or by electronic means, within 10 business days after receipt of the laboratory report; and</u></p>	<p><u>§ 1244. RESPONSE TO ACTION LEVEL; NOTICE; REPORTING</u></p> <p><u>If a sample of drinking water under section 1243 of this title indicates that drinking water from an outlet is at or above the action level at an outlet, the school district, supervisory union, independent school, or child care provider that owns, controls, or operates the building or facility in which the outlet is located shall conduct remediation to eliminate or reduce lead levels in the drinking water from the outlet. At a minimum, the school district, supervisory union, independent school, or child care provider shall:</u></p> <p style="padding-left: 40px;"><u>(1)(A) prohibit use of an outlet that is at or above the action level until:</u></p> <p style="padding-left: 80px;"><u>(i) implementation of a lead remediation plan or other remediation measure that was published or approved by the Commissioner or that is consistent with the U.S. Environmental Protection Agency's 3Ts for Reducing Lead in Drinking Water in Schools; and</u></p> <p style="padding-left: 80px;"><u>(ii) sampling indicates that lead levels from the outlet are below the action level; or</u></p> <p style="padding-left: 40px;"><u>(B) prohibit use of an outlet that exceeds the action level until the outlet is permanently removed, disabled, or otherwise cannot be accessed by any person for the purposes of consumption or cooking;</u></p> <p style="padding-left: 40px;"><u>(2) provide occupants of the building or child care facility an adequate alternative water source until remediation is performed;</u></p> <p style="padding-left: 40px;"><u>(3) notify all staff and all parents or guardians of students directly of the test results and the proposed or taken remedial action in writing or by electronic means within 10 school days after receipt of the laboratory report;</u></p>

<p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p><u>(5) submit lead remediation plans to the Department as they are completed.</u></p> <p><u>§ 1245. RECORD KEEPING; PUBLIC NOTIFICATION; DATABASE</u></p> <p><u>(a) Record keeping. The Department of Health shall retain all records of test results, laboratory analyses, lead remediation plans, and waiver requests for 10 years following the creation or acquisition of the record. Records produced or acquired by the Department under this chapter are public records subject to inspection or copying under the Public Records Act.</u></p> <p><u>(b) Public notification. On or before March 1, 2020, the Commissioner shall publish on the Department website the data from testing under section 1243 of this title so that the results of sampling are fully transparent and accessible to the public. The data published by the Department shall include a list of all buildings or facilities owned, controlled, or operated by a school district, supervisory union, independent school, or child care provider at which an outlet exceeded the action level within the previous two years of reported samples. The Commissioner shall publish all retesting data on the Department’s website within two weeks of receipt of the relevant laboratory analysis. The Secretary of Education shall include a link on the Agency of Education website to the Department of Health website required under this subsection.</u></p>	<p><u>(4) submit lead remediation plans to the Department as they are completed;</u></p> <p><u>(5) notify all staff and all parents or guardians or students in writing or by electronic means of what remedial actions have been taken; and</u></p> <p><u>(6) submit notice to the Department of Health that remediation plans have been completed.</u></p> <p><u>§ 1245. RECORD KEEPING; PUBLIC NOTIFICATION; DATABASE</u></p> <p><u>(a) Record keeping. The Department of Health shall retain all records of test results, laboratory analyses, lead remediation plans, and notices of exception for 10 years following the creation or acquisition of the record. Records produced or acquired by the Department under this chapter are public records subject to inspection or copying under the Public Records Act.</u></p> <p><u>(b) Public notification. On or before March 1, 2021, the Commissioner shall publish on the Department website the data from testing under section 1243 of this title so that the results of sampling are fully transparent and accessible to the public. The data published by the Department shall include a list of all buildings or facilities owned, controlled, or operated by a school district, supervisory union, independent school, or child care provider at which an outlet exceeded the action level within the previous two years of reported samples. The Commissioner shall publish all retesting data on the Department’s website within two weeks of receipt of the relevant laboratory analysis. The Secretary of Education shall include a link on the Agency of Education website to the Department of Health website required under this subsection.</u></p>

<p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p><u>§ 1246. LEAD REMEDIATION PLAN; GUIDANCE</u></p> <p>(a) Consultation. When a laboratory analysis of a sample of drinking water from an outlet at a building or facility owned, controlled, or operated by a school district, supervisory union, independent school, or child care provider exceeds the action level, the school district, supervisory union, independent school, or child care provider shall consult with the Commissioner regarding the development of a lead remediation plan or other necessary response.</p> <p>(b) Guidance; lead remediation plan. The Commissioner, after consultation with the Secretary of Natural Resources and the Secretary of Education, shall issue guidance on development of a lead remediation plan by a school district, supervisory union, independent school, or child care provider. The guidance provided by the Commissioner shall reference the U.S. Environmental Protection Agency's 3Ts for Reducing Lead in Drinking Water in Schools.</p> <p><u>§ 1247. RULEMAKING</u></p> <p>(a) The Commissioner shall adopt rules under this chapter to achieve the purposes of this chapter. It is the intent of the General Assembly that the rules adopted under this section shall be no less stringent than the requirements of the U.S. Environmental Protection Agency's 3Ts for Reducing Lead in Drinking Water in Schools.</p>	<p><u>§ 1246. LEAD REMEDIATION PLAN; GUIDANCE; COMMUNICATION</u></p> <p>(a) Consultation. When a laboratory analysis of a sample of drinking water from an outlet at a building or facility owned, controlled, or operated by a school district, supervisory union, independent school, or child care provider exceeds the action level, the school district, supervisory union, independent school, or child care provider may consult with the Commissioner regarding the development of a lead remediation plan or other necessary response.</p> <p>(b) Guidance; lead remediation plan. The Commissioner, after consultation with the Secretary of Natural Resources, the Commissioner for Children and Families, and the Secretary of Education, shall issue guidance on development of a lead remediation plan by a school district, supervisory union, independent school, or child care provider. The guidance provided by the Commissioner shall reference the U.S. Environmental Protection Agency's 3Ts for Reducing Lead in Drinking Water in Schools.</p> <p>(c) Communications: The Department of Health shall develop sample communications for parents for use by school districts, supervisory unions, independent schools, and child care providers concerning lead in water and reducing exposure to lead under this chapter.</p> <p><u>§ 1247. RULEMAKING</u></p> <p>(a) The Commissioner shall adopt rules under this chapter to achieve the purposes of this chapter.</p>

<p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p><u>(b) On or before November 1, 2020, the Commissioner, with continuing consultation with the Secretary of Natural Resources and the Secretary of Education, shall adopt rules regarding the implementation of the requirements of this chapter. The rules shall include:</u></p> <p style="padding-left: 40px;"><u>(1) requirements or guidance for taking samples of drinking water from outlets in a building or facility owned, controlled, or operated by a school district, supervisory union, independent school, or child care provider;</u></p> <p style="padding-left: 40px;"><u>(2) the frequency of sampling required, including additional sampling requirements when there is an exceedance of the action level at an outlet;</u></p> <p style="padding-left: 40px;"><u>(3) requirements for implementation of a lead mitigation plan or other necessary response to a reported exceedance of the action level;</u></p> <p style="padding-left: 40px;"><u>(4) conditions or criteria for the waiver of sampling required under this chapter; and</u></p> <p style="padding-left: 40px;"><u>(5) any other requirements that the Commissioner deems necessary for the implementation of the requirements of this chapter.</u></p> <p><u>§ 1248. ENFORCEMENT; PENALTIES</u></p> <p><u>In addition to any other authority provided by law, the Commissioner of Health or a hearing officer designated by the Commissioner may, after notice and an opportunity for hearing, impose an administrative penalty of up to \$500.00 for a violation of the requirements of this chapter. The</u></p>	<p><u>(b) On or before November 1, 2020, the Commissioner, with continuing consultation with the Secretary of Natural Resources, <b>the Commissioner for Children and Families,</b> and the Secretary of Education, shall adopt rules regarding the implementation of the requirements of this chapter. The rules shall include:</u></p> <p style="padding-left: 40px;"><u>(1) requirements or guidance for taking samples of drinking water from outlets in a building or facility owned, controlled, or operated by a school district, supervisory union, independent school, or child care provider <b>that are no less stringent than the requirements of the U.S. Environmental Protection Agency's 3Ts for Reducing Lead in Drinking Water in Schools and that include a first draw sample and second flush sample;</b></u></p> <p style="padding-left: 40px;"><u>(2) the frequency of <b>continued sampling of outlets by school districts, supervisory unions, independent schools, and child care providers, provided that continued sampling shall be required no less frequently than every three years;</b></u></p> <p style="padding-left: 40px;"><u>(3) requirements for implementation of a lead mitigation plan or other necessary response to a reported exceedance of the action level;</u></p> <p style="padding-left: 40px;"><u>(4) <b>exemptions from the requirements for sampling or remediation under this chapter,</b> including conditions or criteria <b>for the exceptions from the sampling</b> required under this chapter; and</u></p> <p style="padding-left: 40px;"><u>(5) any other requirements that the Commissioner deems necessary for the implementation of the requirements of this chapter.</u></p> <p><u>§ 1248. ENFORCEMENT; PENALTIES</u></p> <p><u>In addition to any other authority provided by law, the Commissioner of Health or a hearing officer designated by the Commissioner may, after notice and an opportunity for hearing, impose an administrative penalty of up to \$500.00 for a violation of the requirements of this chapter. <p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p style="text-align: center;"><b>H.532. FY 2019 Budget Adjustments</b> <b>As Approved by the Governor</b></p> <p>(2) To the Department of Health: \$2,400,000 to fund testing for lead in drinking water and additional support in schools and child care facilities consistent with the program established in S.40 of 2019. These funds are allocated as follows:</p> <p>(A) \$125,000 to fund the limited service program position established in S.40 of 2019.</p>	<p><b>Sec. 3a. DEPARTMENT FOR CHILDREN AND FAMILIES; RULES FOR REGULATED CHILD CARE PROVIDERS</b></p> <p>On or before December 31, 2020, the Commissioner for Children and Families shall amend the rules for regulated child care providers to comply with the requirements of 18 V.S.A. chapter 24A and rules adopted by the Department of Health under that chapter for the testing of lead in the drinking water of child care facilities.</p> <p><b>Sec. 4. STATUS OF REMEDIATION OF LEAD IN SCHOOLS AND CHILD CARE FACILITIES</b></p> <p>On or before January 15, 2020, the Commissioner of Health, after consultation with the Secretary of Natural Resources, the Commissioner for Children and Families, and the Secretary of Education, shall provide written or oral testimony to the House Committee on Education and the Senate Committee on Education regarding the implementation, administration, and financing of the requirements under 18 V.S.A. chapter 24A that schools and child care providers sample for and remediate lead in drinking water. The testimony may include recommendations for additional programmatic and technical requirements for sampling for and remediating lead in schools or child care facilities in the State.</p> <p><b>Sec. 5. ALLOCATION OF FUNDS; REMEDIATION; ELIGIBLE COSTS</b></p> <p>(a) For remediation required under 18 V.S.A. chapter 24A, the Department of Health shall pay a school district, supervisory union, or independent school for replacement of a drinking water fixture at the following amount listed for each type of fixture:</p> <p>(1) public drinking fountains and ice machines: \$1,849.00;</p>

<p style="text-align: center;"><b>S.40</b> <b>As Passed Senate</b></p>	<p style="text-align: center;"><b>S.40</b> <b>As Proposed by House</b></p>
<p>(B) \$150,000 to fund program start-up and data management costs for the program.</p> <p>(C) \$2,125,000 to fund the initial testing and retesting costs and to apply to tap remediation costs.</p> <p>(3) To the Department of Environmental Conservation: \$125,000 to fund the limited service remediation position established in S.40 of 2019.</p>	<p>(2) outlets used for cooking: \$554.00;</p> <p>(3) all other outlets: \$319.00.</p> <p>(b) For remediation required under 18 V.S.A. chapter 24A, the Department of Health shall pay a child care provider \$454.00 for replacement of a drinking water fixture.</p> <p>(c) The State shall make payments to school districts, supervisory unions, independent schools, or child care facilities under this section from funds appropriated to the Department of Health for the costs of initial testing, retesting, and remediation under 18 V.S.A. chapter 24A. Funds appropriated to the Department of Health in Sec. 88 (a)(2) of H.532 of 2019 may be transferred to the State agency or department administering these payments.</p> <p><b>Sec. 5. ALLOCATION OF FUNDS; REMEDIATION; ELIGIBLE COSTS</b></p> <p>(a) For remediation required under 18 V.S.A. chapter 24A, the Department of Health shall pay a school district, supervisory union, independent school, or child care provider the actual cost of replacement of a drinking water fixture up to the following maximum amount for each type of fixture:</p> <p>(1) public drinking fountains and ice machines: \$2,000.00;</p> <p>(2) outlets used for cooking: \$700.00;</p> <p>(3) all other outlets: \$400.00.</p> <p>(b) The State shall make payments to school districts, supervisory unions, independent schools, or child care providers under this section from one-time funds appropriated to the Department of Health in fiscal years 2019 and 2020 for the costs of initial testing, retesting, and remediation under 18 V.S.A. chapter 24A. Funds appropriated to the Department of Health in Sec. 88 (a)(2) of H.532 of 2019 may be transferred to the State agency or department administering these payments.</p>
