

Public Comment on H.51, H.175, H.214

To whom it may concern:

I fully support House resolutions H. 51, H.175 and H.214.

If Vermont is truly serious about reversing climate change, it is time to take bold action and send strong, clear messages that we are committed to addressing problems where we can.

Prohibiting the taking of land by eminent domain for fossil fuel projects is one step Vermont can enact now to demonstrate that commitment.

Water is one of our most precious resources. Protect our "Commons" with the most stringent rules possible!

Thank you,
Bob Hawk
