LET LIKES BE CURED BY LIKES.

Originated with Paracelsus and Socrates

How it all began.

- Trained as an M.D. and Chemist
- in a time of blood letting and harsh, untested drugs given as “medicine”.
- Patient left in a weakened state.
- Became a translator of medical, pharmacological and chemical literature-proficient in Greek, Latin, English, French, Hebrew and Arabic.

Translating *Cullen's Materia Medica* on the toxicological affects (overdose) of Peruvian bark he noticed were identical to *the Malaria symptoms which (Cinchona a.k.a Quinine) treated.*

“As an experiment I took 4 drams of good quality China twice daily for a number of days. First my feet, fingertips etc. grew cold and I became languid and drowsy...palpitations, tremors ...pulse beating in head, redness of cheeks, thirst, stiffness in all joints, intermittent fever, dullness of senses.”

The actions of a drug are determined by testing it on healthy subjects...Hahnemann began with himself .
