

Sec. X. BRATTLEBORO RETREAT; CONDITIONS OF STATE FUNDING

(a) Findings. In recognition of the significant need within Vermont's health care system for inpatient psychiatric capacity, the General Assembly has made significant investments in capital funds and in rate adjustments to assist the Brattleboro Retreat in its financial sustainability. The General Assembly has a significant interest in the quality of care provided at the Brattleboro Retreat, which provides 100 percent of the State's inpatient psychiatric care for children and youth, and more than half of the adult inpatient care, of which approximately 50 percent is paid for with State funding.

(b) Conditions. As a condition of further State funding, the General Assembly requires that the following quality oversight measures be implemented by the Brattleboro Retreat under the oversight of the Department of Mental Health:

(1) Allow the existing mental health patient representative under contract with the Department pursuant to 18 V.S.A. § 7253(1)(J) to have full access to inpatient units to ensure that the mental health patient representative is available to individuals who are not in the custody of the Commissioner.

(2) In addition to existing policies regarding the provision of certificates of need for emergency involuntary procedures, provide to the Department deidentified certificates of need for emergency involuntary procedures used on individuals who are not in the custody of the Commissioner.

(3) Ensure that the mental health patient representative be a regular presenter at the Brattleboro Retreat's employee orientation programming.

(c)(1) Patient Experience and Quality of Care. To support proactive, continuous quality and practice improvement and to ensure timely access to high quality patient care, the Department and the Brattleboro Retreat shall:

(A) To the extent feasible by the Department, meet jointly each month with the mental health patient representative contracted pursuant to 18 V.S.A. § 7253(1)(J) and the mental health care ombudsman established pursuant to 18 V.S.A. § 7259 to review patient experiences of care; and

(B) Identify clinical teams within the Department and the Brattleboro Retreat to meet monthly for discussions on quality issues, including service delivery, clinical practices, practice improvement and training, case review, admission and discharge coordination, and other patient care and safety topics.

(2) On or before February 1, 2021, the Department shall report to the House Committee on Health Care and to the Senate Committee on Health and Welfare regarding patient experiences and quality of care at the Brattleboro Retreat.
