

To Whom It May Concern:

I am writing to voice our opposition to the passing of this bill. If it, as has been stated by the sponsors and those testifying in favor, does not add to or take away from the rights that already exist, then why is it necessary at all? Or, are there potential loopholes in the bill's language that will allow for abortions to occur either later in a pregnancy's term and even be allowed up to full term or later, as has been made law in New York State or more recently being attempted in Virginia? My wife and I are vehemently opposed to any legislation that will broaden the freedom for individuals and their healthcare providers to practice abortion. It is on moral and religious grounds that we make this testifying statement.
