

1 H.926 amendment removing changes to Board

2 * * * Revisions to Capability and Development Plan * * *

3 Sec. 1. 1973 Acts and Resolves No. 85, Sec. 7(a)(20) is added to read:

4 (20) GREENHOUSE GAS EMISSIONS AND CLIMATE CHANGE

5 Climate change poses serious risks to human health and safety, functioning
6 ecosystems that support a diversity of species and economic growth, and
7 Vermont’s tourist, forestry, and agricultural industries. The primary driver of
8 climate change in Vermont and elsewhere is the increase of atmospheric
9 carbon dioxide from the burning of fossil fuels, which has a warming effect
10 that is amplified because atmospheric water vapor, another greenhouse gas,
11 increases as temperature rises. Vermont should minimize its emission of
12 greenhouse gases and, because the climate is changing, ensure that the design
13 and materials used in development enable projects to withstand an increase in
14 extreme weather events and adapt to other changes in the weather and
15 environment.

16 Sec. 2. 1973 Acts and Resolves No. 85, Sec. 7(a)(2) is amended to read:

17 (2) ECOSYSTEM PROTECTION AND UTILIZATION OF NATURAL
18 RESOURCES

19 (A) Healthy ecosystems clean water, purify air, maintain soil,
20 regulate the climate, recycle nutrients, and provide food. They provide raw
21 materials and resources for medicines and other purposes. They are at the

1 foundation of civilization and sustain the economy. These ecosystem services
2 are the state's natural capital.

3 (B) Biodiversity is the key indicator of an ecosystem's health. A
4 wide variety of species copes better with threats than a limited number of
5 species in large populations.

6 (C) Products of the land and the stone and minerals under the land, as
7 well as the beauty of our landscape are principal natural resources of the state.

8 (D) ~~Preservation~~ Protection of healthy ecosystems in Vermont,
9 preservation of the agricultural and forest productivity of the land; and the
10 economic viability of agricultural units, conservation of the recreational
11 opportunity afforded by the state's hills, forests, streams and lakes, wise use of
12 the state's non-renewable earth and mineral reserves, and protection of the
13 beauty of the landscape are matters of public good. Uses which threaten or
14 significantly inhibit ~~these~~ healthy ecosystems and the state's natural and scenic
15 resources should be permitted only when the public interest is clearly benefited
16 thereby.

17 * * * Revisions to State Land Use Law * * *

18 Sec. 3. 10 V.S.A. chapter 151 is amended to read:

19 CHAPTER 151. STATE LAND USE AND DEVELOPMENT PLANS

20 Subchapter 1. General Provisions

21 § 6000. PURPOSE; CONSTRUCTION

1 or any municipality with land in the 2,000-foot radius, that municipal
2 ordinances or bylaws applicable to properties around the interchange:

3 (I) Ensure that planned development patterns will maintain the
4 safety and function of the interchange area for all road users, including
5 nonmotorized, for example, by limiting curb cuts, and by sharing parking and
6 access points and parcels will be interconnected to adjoining parcels wherever
7 physically possible.

8 (II) Ensure that development will be undertaken in a way that
9 preserves scenic characteristics both at and beyond the project site. This shall
10 include a determination that site and building design fit the context of the area.

11 (III) Ensure that development does not destroy or compromise
12 necessary wildlife habitat or endangered species.

13 (IV) Ensure that uses allowed in the area will not impose a
14 burden on the financial capacity of a town or the State.

15 (V) Ensure that allowed uses be of a type, scale, and design that
16 complement rather than compete with uses that exist in designated downtowns,
17 village centers, growth centers, or other regional growth areas. Principle retail
18 should be discouraged or prohibited in highway interchange areas.

19 (VI) Ensure that development in this area not establish or
20 contribute to a pattern of strip development. Where strip development already

1 exists, development in this area must be infill that minimizes the characteristics
2 of strip development.

3 (VII) Require site design to use space efficiently by siting
4 buildings close together; minimizing paved surfaces; locating parking to
5 consider aesthetics, neighborhoods, and view sheds; and minimizing the use of
6 one-story buildings.

7 (VIII) Require the permitted uses, patterns of development, and
8 aesthetics of development in these areas to conform with the regional plan and
9 be consistent with the goals of 24 V.S.A. § 4302.

10 (xii) The construction of a road or roads and any associated
11 driveways to provide access to or within a tract of land of more than one acre
12 owned or controlled by a person. For the purposes of determining jurisdiction
13 under this subdivision, any new development or subdivision on a parcel of land
14 that will be provided access by the road and associated driveways is land
15 involved in the construction of the road. Jurisdiction under this subdivision
16 shall not apply unless the length of the road and any associated driveways in
17 combination is greater than 2,000 feet. As used in this subdivision, “roads”
18 shall include any new road or improvement to a Class IV road by a private
19 person, including roads that will be transferred to or maintained by a
20 municipality after their construction or improvement. For the purpose of
21 determining the length of any road and associated driveways, the length of all

1 other roads and driveways within the tract of land constructed within any
2 continuous period of 10 years commencing after July 1, 2020 shall be
3 included. This subdivision shall not apply to a State or municipal road, a
4 utility corridor of an electric transmission or distribution company, or a road
5 used primarily for farming or forestry purposes. The conversion of a road used
6 for farming or forestry purposes that also meets the requirements of this
7 subdivision shall constitute development.

8 * * *

9 ~~(6) “Floodway” means the channel of a watercourse which is expected to~~
10 ~~flood on an average of at least once every 100 years and the adjacent land areas~~
11 ~~which are required to carry and discharge the flood of the watercourse, as~~
12 ~~determined by the Secretary of Natural Resources with full consideration given~~
13 ~~to upstream impoundments and flood control projects. “Flood hazard area” has~~
14 ~~the same meaning as under section 752 of this title.~~

15 ~~(7) “Floodway fringe” means an area which is outside a floodway and is~~
16 ~~flooded with an average frequency of once or more in each 100 years as~~
17 ~~determined by the Secretary of Natural Resources with full consideration given~~
18 ~~to upstream impoundments and flood control projects. “River corridor” has the~~
19 ~~same meaning as under section 752 of this title.~~

4 any auction advertised or publicized in any manner, or to which more than ten
5 persons have been invited.

8 patches of habitat within a landscape, allowing the movement, migration, and
9 dispersal of wildlife and plants and the functioning of ecological processes. A
10 connecting habitat may include recreational trails and improvements
11 constructed for farming, logging, or forestry purposes.

12 (39) “Forest block” means a contiguous area of forest in any stage of
13 succession and not currently developed for nonforest use. A forest block may
14 include recreational trails, wetlands, or other natural features that do not
15 themselves possess tree cover and improvements constructed for farming,
16 logging, or forestry purposes.

17 (40) “Fragmentation” means the division or conversion of a forest block
18 or connecting habitat by the separation of a parcel into two or more parcels; the
19 construction, conversion, relocation, or enlargement of any building or other
20 structure, or of any mining, excavation, or landfill; and any change in the use
21 of any building or other structure, or land, or extension of use of land.

1 However, fragmentation does not include the division or conversion of a forest
2 block or connecting habitat by a recreational trail or by improvements
3 constructed for farming, logging, or forestry purposes below the elevation of
4 2,500 feet.

5 (41) “Habitat” means the physical and biological environment in which
6 a particular species of plant or wildlife lives.

7 (42) As used in subdivisions (38), (39), and (40) of this section,
8 “recreational trail” means a corridor that is not paved and that is used for
9 recreational purposes, including hiking, walking, bicycling, cross-country
10 skiing, snowmobiling, all-terrain vehicle riding, and horseback riding.

11 (43) “Air contaminant” has the same meaning as under section 552 of
12 this title.

13 (44) “Commercial purpose” means the provision of facilities, goods, or
14 services by a person other than for a municipal or State purpose to others in
15 exchange for payment of a purchase price, fee, contribution, donation, or other
16 object or service having value, regardless of whether the payment is essential
17 to sustain the provision of the facilities, goods, or services.

18 (45) “Greenhouse gas” means carbon dioxide, methane, nitrous oxide,
19 hydrofluorocarbons, perfluorocarbons, sulfur hexafluoride, and any other
20 chemical or physical substance that is emitted into the air and that the

1 Secretary of Natural Resources or District Commission reasonably anticipates
2 to cause or contribute to climate change.

3 (46) “Technical determination” means a decision that results from the
4 application of scientific, engineering, or other similar expertise to the facts to
5 determine whether activity for which a permit is requested meets the standards
6 for issuing the permit under statute and rule. The term does not include an
7 interpretation of a statute or rule.

8 (47) “Forest-based enterprise” means an enterprise that aggregates forest
9 products from forestry operations and adds value through processing or
10 marketing in the forest products supply chain or directly to consumers through
11 retail sales. “Forest-based enterprise” includes sawmills; veneer mills; pulp
12 mills; pellet mills; producers of firewood, woodchips, mulch and fuel wood;
13 and log and pulp concentration yards. “Forest-based enterprise” does not
14 include facilities that purchase, market, and resell finished goods, such as
15 wood furniture, wood pellets, and milled lumber, without first receiving forest
16 products from forestry operations.

17 (48) “Forest product” means logs, pulpwood, veneer wood, bolt wood,
18 wood chips, stud wood, poles, pilings, biomass, fuel wood, maple sap, and
19 bark.

20 (49) “Environmental justice” means that all people and communities
21 have the right to equal environmental protection under the law and the right to

1 live, work, and play in communities that are safe, healthy, and free of life-
2 threatening conditions.

§ 6086. ISSUANCE OF PERMIT; CONDITIONS AND CRITERIA

(a) Criteria. Before granting a permit, the District Commission shall find that the subdivision or development:

(1) Air pollution. Will not result in undue ~~water or~~ air pollution. In making this determination, the District Commission shall at least consider: the air contaminants, greenhouse gas emissions, and noise to be emitted by the development or subdivision, if any; the proximity of the emission source to residences, population centers, and other sensitive receptors; and emission dispersion characteristics at or near the source.

(A) Air contaminants. A permit will be granted whenever it is demonstrated by the applicant that, in addition to all other applicable criteria, the emission, if any, of air contaminants by the development or subdivision will meet any applicable requirement under the Clean Air Act, 42 U.S.C. chapter 85, and the air pollution control regulations of the Department of Environmental Conservation.

1 (2) Water pollution. Will not result in undue water pollution. In making
2 this determination ~~it~~, the District Commission shall at least consider: the
3 elevation of land above sea level; and in relation to the flood plains, the nature
4 of soils and subsoils and their ability to adequately support waste disposal; the
5 slope of the land and its effect on effluents; the availability of streams for
6 disposal of effluents; and the applicable Health and Environmental
7 Conservation Department regulations.

8 (A) Headwaters. A permit will be granted whenever it is
9 demonstrated by the applicant that, in addition to all other applicable criteria,
10 the development or subdivision will meet any applicable Health and
11 Environmental Conservation Department regulation regarding reduction of the
12 quality of the ground or surface waters flowing through or upon lands ~~which~~
13 that are not devoted to intensive development, and which lands are:

14 (i) headwaters of watersheds characterized by steep slopes and
15 shallow soils; or

16 (ii) drainage areas of 20 square miles or less; or

17 (iii) above 1,500 feet elevation; or

18 (iv) watersheds of public water supplies designated by the Agency
19 of Natural Resources; or

20 (v) areas supplying significant amounts of recharge waters to
21 aquifers.

1 (B) Waste disposal. A permit will be granted whenever it is
2 demonstrated by the applicant that, in addition to all other applicable criteria,
3 the development or subdivision will meet any applicable Health and
4 Environmental Conservation Department regulations regarding the disposal of
5 wastes, and will not involve the injection of waste materials or any harmful or
6 toxic substances into ground water or wells.

7 (C) Water conservation. A permit will be granted whenever it is
8 demonstrated by the applicant that, in addition to all other applicable criteria,
9 the design has considered water conservation, incorporates multiple use or
10 recycling where technically and economically practical, utilizes the best
11 available technology for such applications, and provides for continued efficient
12 operation of these systems.

13 (D) ~~Floodways~~ Flood hazard areas; river corridors. A permit will be
14 granted whenever it is demonstrated by the applicant that, in addition to all
15 other applicable criteria:

16 (i) the development or subdivision of lands within a ~~floodway~~
17 flood hazard area or river corridor will not restrict or divert the flow of flood
18 waters, cause or contribute to fluvial erosion, and endanger the health, safety,
19 and welfare of the public or of riparian owners during flooding; ~~and~~

20 (ii) ~~the development or subdivision of lands within a floodway~~
21 ~~fringe will not significantly increase the peak discharge of the river or stream~~

1 ~~within or downstream from the area of development and endanger the health,~~
2 ~~safety, or welfare of the public or riparian owners during flooding.~~

3 (E) Streams. A permit will be granted whenever it is demonstrated
4 by the applicant that, in addition to all other applicable criteria, the
5 development or subdivision of lands on or adjacent to the banks of a stream
6 will, whenever feasible, maintain the natural condition of the stream, and will
7 not endanger the health, safety, or welfare of the public or of adjoining
8 landowners.

9 (F) Shorelines. A permit will be granted whenever it is demonstrated
10 by the applicant that, in addition to all other criteria, the development or
11 subdivision of shorelines must of necessity be located on a shoreline in order to
12 fulfill the purpose of the development or subdivision, and the development or
13 subdivision will, insofar as possible and reasonable in light of its purpose:

14 (i) retain the shoreline and the waters in their natural condition;

15 (ii) allow continued access to the waters and the recreational

8 (c) Permit Conditions.

9 (1) A permit may contain such requirements and conditions as are
10 allowable proper exercise of the police power and ~~which~~ that are appropriate
11 within the respect to subdivisions (a)(1) through (10) of this section, including

18 (2) Permit conditions on a forest-based enterprise.

19 (A) A permit condition that sets hours of operation for a forest-based
20 enterprise shall only be imposed to mitigate an impact under subdivision
21 (a)(1), (5), or (8) of this section.

1 (B) Unless an impact under subdivision (a)(1) or (5) of this section
2 would result, a permit issued to a forest-based enterprise shall allow the

4 operation. These permits shall allow for deliveries of forest products from
5 forestry operations to the enterprise outside of permitted hours of operation,
6 including nights, weekends, and holidays, for a minimum of 60 days per year.

7 (C) In making a determination under this subdivision (2) as to

11 minimum restriction necessary to address the undue adverse impact.

12 (3) Permit conditions on the delivery of wood heat fuels. A permit
13 issued to a forest-based enterprise that produces wood chips, pellets, cord
14 wood, or other fuel wood used for heat shall allow shipment of that fuel wood

8 combination of such permits or approvals, in lieu of evidence by the applicant.
9 ~~A District Commission, in accordance with rules adopted by the Board, shall~~
10 ~~accept determinations issued by a development review board under the~~
11 ~~provisions of 24 V.S.A. § 4420, with respect to local Act 250 review of~~
12 ~~municipal impacts. The acceptance of such approval, positive determinations,~~
13 ~~permit, or permits shall create a presumption that the application is not~~
14 ~~detrimental to the public health and welfare with respect to the specific~~
15 ~~requirement for which it is accepted. In the case of approvals and permits~~
16 ~~issued by the Agency of Natural Resources, technical determinations of the~~
17 ~~Agency shall be accorded substantial deference by the Commissions. The~~
18 ~~acceptance of negative determinations issued by a development review board~~
19 ~~under the provisions of 24 V.S.A. § 4420, with respect to local Act 250 review~~
20 ~~of municipal impacts shall create a presumption that the application is~~
21 ~~detrimental to the public health and welfare with respect to the specific~~

1 ~~requirement for which it is accepted. Any determinations, positive or negative,~~
2 ~~under the provisions of 24 V.S.A. § 4420 shall create presumptions only to the~~
3 ~~extent that the impacts under the criteria are limited to the municipality issuing~~

5 procedures set forth in ~~3 V.S.A., chapter 25,~~ the Vermont Administrative
6 Procedure Act.

7 (1) The rules adopted by the Board shall not approve the acceptance of a

9 unless it satisfies the appropriate requirements of subsection (a) of this section.

10 (2) A presumption created under this subsection may be rebutted by the
11 introduction of evidence contrary to the presumed fact.

12 (3) The District Commission, in accordance with rules adopted by the
13 Board, shall accept determinations issued by a development review board
14 under the provisions of 24 V.S.A. § 4420, with respect to local review of
15 municipal impacts under criteria of this section. The acceptance of such a
16 determination, if positive, shall create a presumption that the application is not
17 detrimental to the public health and welfare with respect to the specific
18 requirement for which it is accepted and, if negative, shall create a
19 presumption that the application is so detrimental. Any determinations,
20 positive or negative, under the provisions of 24 V.S.A. § 4420 shall create
21 presumptions only to the extent that the impacts under the criteria are limited

1 to the municipality issuing the decision. If a municipality fails to respond to a
2 request by the applicant within 90 days as to the impacts related to subdivision
3 (a)(6) or (7), the application will be presumed not to have an unreasonable
4 burden on educational, municipal, or governmental services.

18 (b) The burden of persuasion, to show that the application meets the
19 relevant standard, shall be on the applicant with respect to subdivisions
20 6086(a)(1), (2), (3), (4), (8)(A) through (C), (9), and (10) of this title.

1 (2) Expiration dates contained in permits issued before July 1, 1994
2 (involving developments that are not for extraction of mineral resources,
3 operation of solid waste disposal facilities, or logging above 2,500 feet) are
4 extended for an indefinite term, ~~as long as~~ provided there is compliance with
5 the conditions of the permits.

6 (c) Change to nonjurisdictional use; release from permit.

7 (1) On an application signed by each permittee, the District Commission
8 may release land subject to a permit under this chapter from the obligations of
9 that permit and the obligation to obtain amendments to the permit, on finding
10 each of the following:

11 (A) The use of the land as of the date of the application is not the
12 same as the use of the land that caused the obligation to obtain a permit under
13 this chapter or the municipality where the land is located has adopted
14 permanent zoning and subdivision bylaws, but had not when the permit was
15 issued.

16 (B) The use of the land as of the date of the application does not
17 constitute development or subdivision as defined in section 6001 of this title

19 land is already subject to a permit under this chapter.

20 (C) The permittee or permittees are in compliance with the permit
21 and their obligations under this chapter.

13 151 and what changes should be made, if any, to the Capability and
14 Development Plan Findings.

15 (2) How the State should update the capability and development plan
