

# Vermont Economic Progress Council

Report to House Ways and Means

January 23, 2019

Megan Sullivan

A group of approximately ten people are seated in a room, possibly a meeting or presentation. They are arranged in two rows, with some standing in the back. The image is in grayscale and has a dark overlay, making the details somewhat muted. The people are dressed in business casual attire.

# Vermont Economic Progress Council Background

- ▶ VEPC is an independent body created by the General Assembly 25 years ago that is attached to ACCD for administrative support.
- ▶ VEPC is housed within ACCD and receives legal, grants management, IT, and other services from the Agency.
- ▶ VEPC's budget is included in the DED budget.
- ▶ VEPC is staffed by an Executive Director appointed by the Governor with the consent of the Senate, and one classified employee, a Grants Program Manager.

# VEPC Programmatic Responsibilities

- ▶ VEPC administers two programs in accordance with statute:
  - ▶ Vermont Employment Growth Incentive
    - ▶ The application and approval process for the Vermont Employment Growth Incentive (VEGI) program.
    - ▶ VEPC partners with the Vermont Tax Department on claims and monitoring of this program.
  - ▶ Tax Increment Financing
    - ▶ The application and approval process, as well as monitoring and oversight, of TIF districts.
    - ▶ VEPC partners with the Tax Department and the State Auditor's Office on administration and oversight of this program.
- ▶ In Accordance with statute VEPC also has review responsibilities for the ThinkVermont Innovation Grant.

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. The shapes are primarily triangles and polygons, creating a dynamic, layered effect. The central text is set against a white background that is framed by these green shapes.

# Vermont Economic Progress Council

Vermont Economic Growth Incentive

# VEGI Background

- ▶ The State of Vermont created the VEGI program to encourage business recruitment, growth, and expansion.
- ▶ The program can provide a performance-based cash incentive for prospective job and payroll creation and capital investment that is beyond organic growth and which occurs because of the incentive.
- ▶ As an “incentive,” the program is neither a grant nor financing. Rather, it is an inducement to create quality jobs and invest in Vermont when that would not otherwise occur without the incentive.
- ▶ The VEGI program is performance-based. No incentive is paid to the company at the time the incentives are authorized.
- ▶ Companies can only be authorized to earn the incentive through application to VEPC.
- ▶ VEPC’s authorization determines eligibility and sets the level of incentive based on the economic activity that is projected to occur.

# VEGI: Criteria For Approval

VEPC Determines eligibility based on 5 criteria for approval

- ▶ The total estimated incremental tax revenues from all sources generated to the State by the proposed economic activity exceeds the revenue costs of the activity to the State, including the cost of the incentive;
- ▶ The host municipality welcomes the new business and the proposed economic activity conforms to applicable town and regional plans;
- ▶ The business is in compliance with State regulations and laws;
- ▶ If the business proposes to expand within a limited local market, an incentive would not give the business an unfair competitive advantage over other Vermont businesses in the same or similar line of business and in the same limited local market; and
- ▶ But for the incentive, the proposed economic activity:
  - ▶ (A) would not occur; or
  - ▶ (B) would occur in a significantly different manner that is significantly less desirable to the State.

# “But For”

- ▶ VEPC staff advise applicants on the eligibility threshold on the “But-For” requirement, discouraging potential applicants who obviously do not meet it. Many inquiries do not go any further than the initial conversation.
- ▶ Further, applicants’ activities must exceed background growth for the industry, which is calculated according to a quantitative model set by Joint Fiscal. This leads to a further drop out rate after pre-app. They may meet the “But For” but if their growth doesn’t surpass the projections for the industry they are not incentivized.
- ▶ VEPC’s board does a detailed review of all but-for claims, reviewing not only statements made but also the required back up documentation that applicants provide. Each board member is picked based on their individual experiences in business and government and use this expertise to review documentation and ask questions of applicants before making a determination.
- ▶ A subjective process can still be audited for conformance with policy.

# HOW VEGI WORKS

VT Economic Progress Council

VEPC Authorizes Company to Earn VEGI Incentive \$885,000

**Company Meets Statutory Requirements**

- Activity will not occur, or will occur in a materially different way, except for the incentives
- Company/ Project meets guidelines.
- Net Revenue Benefit

No tax Dollars go to company when authorized

Company Does Project Because of Incentives

NET REVENUE BENEFIT TO SOV: \$850,000 (after 5 years)

**INCENTIVE**  
\$885,000

Incentive earned only if base payroll and employment is maintained and targets are met and maintained. Earned over 5 years, paid out over 9 years.

**5 YEAR EARNING PERIOD:**

NEW EMPLOYEES: Net Incremental Payroll \$3.4 Million

Sales	Engineers	Executives	Production	Administration	TOTAL JOBS
\$85,000	\$70,000	\$56,000	\$44,000	\$36,000	
X 2	X 18	X 10	X 32	X 8	70

MACHINERY & EQUIPMENT INVESTMENTS: \$3 Million

FACILITY CONSTRUCTION & IMPROVEMENT INVESTMENTS: \$7.5 Million

NEW BUSINESS TO BUSINESS RELATIONSHIPS

Incremental Tax Revenues

**Revenue Benefits and Costs to the State**

Incremental Tax Revenues from Project:

- Payroll
- Sales & Use
- Rooms & Meals
- Transportation & Fees
- Health Care
- Unemployment Insurance
- Corporate and Individual
- Property

**Total New Revenue to SOV:**  
\$2.2 Million over 5 years

Incremental Revenue Costs Due to Project:

- Per Person General Fund Costs
- Per Pupil Education Fund Costs
- Per Person Transportation Fund Costs

**Revenue Costs to SOV:**  
\$675,000 over 5 years

**NEW NET TAX REVENUES**  
\$1.5 M over 5 Years

Annual Claim Reviews by Tax Department

Targets must be met to earn incentive. If earned, each annual incentive pays out over 5 years.

Targets not met or maintained or project does not occur. No incentives are paid or incentive installments are stopped.

NOTE: All dollar estimates are present value and represent a single application example.

VERMONT ECONOMIC PROGRESS COUNCIL

VERMONT EMPLOYMENT GROWTH INCENTIVE

ILLUSTRATION OF INCENTIVE CALCULATION

Applicant: Sample Company  
 NAICS: 333911

1. To earn incentive, company must maintain or increase base full-time payroll and meet payroll and either headcount or capital investment performance measures by December 31 of each year. The performance measures are set by the applicant in their Final Application

PERFORMANCE MEASURES BASED ON APPLICATION							
	2016	2017	2018	2019	2020	2021	Totals
BASE FULL-TIME PAYROLL	\$ 3,879,000						
NEW QUALIFYING PAYROLL		\$439,000	\$491,000	\$712,000	\$865,000	\$897,000	\$3,404,000
NEW QUALIFYING JOBS		9	9	16	18	18	70
NEW QUALIFYING CAPITAL INVESTMENT		\$8,000,000	\$1,000,000	\$900,000	\$100,000	\$0	\$10,000,000

2. This number is calculated by a cost-benefit analysis that determines the revenue benefits and costs to the State of Vermont generated by the proposed economic activity presented by the applicant (see #1 above). The result is the amount of incremental net new tax revenues that will be generated over five years from all sources to the State of Vermont because of the project activity.

INCENTIVE PERCENTAGE CALCULATION		
Pre-Incentive Net Fiscal Benefit for State: (As calculated by cost-benefit model)		\$1,462,760
(TIMES) Statutory Incentive Ratio	X	80%
(EQUALS) Post-Incentive Ratio C/B Net Fiscal Benefit:	=	\$1,170,208
(DIVIDED BY) Total Qualified Payroll Increase	+	\$3,404,000
(EQUALS) Incentive Percentage	=	34.38%

3. Statute requires that only 80% of the net revenue benefit be used to calculate the incentive (90% for Green VEGI applications).

4. Statute requires that the adjusted net revenue benefit be divided by the total qualifying payroll that will be created by the project to get the Incentive Percentage for which the applicant is eligible.

5. Background Growth Rates for each industry sector (by NAICS) are determined annually using 15 years of data. The industry growth rate is applied to the applicant's total full-time payroll to determine the amount of "background" or "organic" payroll growth that would occur regardless of the incentive. (This amount is adjusted to 20% of normal background growth for Green VEGI applications.) The background growth is then subtracted from the new qualifying payroll projected by the applicant to get the net payroll for which an incentive can be calculated.

PAYROLL AND BACKGROUND GROWTH CALCULATION							
	2017	2018	2019	2020	2021	Totals	
Background Growth Rate:	0.99%						
Base Payroll	\$3,879,000	\$4,434,000	\$5,058,000	\$5,922,000	\$6,965,000	\$8,071,000	
Incremental Qualifying Payroll		\$439,000	\$491,000	\$712,000	\$865,000	\$897,000	\$3,404,000
Organic Growth		\$3,917,315	\$3,956,009	\$3,995,085	\$4,034,547	\$4,074,399	
Incremental Background growth		\$38,315	\$38,694	\$39,076	\$39,462	\$39,852	\$195,399
Payroll to be incented		\$400,685	\$452,306	\$672,924	\$825,538	\$857,148	\$3,208,601

6. For each year, the Incentive Percentage is multiplied by the net new qualifying payroll (after background growth is discounted) to get the incentive amount that can be earned that year. To earn the incentive, base payroll and employment must be maintained, and payroll and either headcount or capital investment performance measures must be fully met.

7. For each year that an incentive is earned, it is paid out in five installments if the payroll and headcount targets are maintained. The first installment is adjusted for partial year hiring and is therefore an estimate until the hiring actually occurs and the actual incentive is paid.

8. The "Maximum Incentive Amount" assumes all hires start January 1 of each year. This is the maximum amount of incentive that could be earned if all new qualifying employees are hired January 1 of each year.

THEORETICAL INCENTIVE AMOUNT AND PAYOUT CALCULATION												
Year	Max. Incentive Amount	Number of Jobs	2018	2019	2020	2021	2022	2023	2024	2025	2026	TOTALS
			1	2	3	4	5	6	7	8	9	
1 - 2017	\$137,755	9	\$22,959	\$27,551	\$27,551	\$27,551	\$27,551					\$133,163
2 - 2018	\$155,503	9		\$25,917	\$31,101	\$31,101	\$31,101	\$31,101	\$31,101			\$150,319
3 - 2019	\$231,351	16			\$38,559	\$46,270	\$46,270	\$46,270	\$46,270			\$223,640
4 - 2020	\$283,820	18				\$47,303	\$56,764	\$56,764	\$56,764	\$56,764		\$274,359
5 - 2021	\$294,688	18					\$49,115	\$58,938	\$58,938	\$58,938	\$58,938	\$284,865
<b>Total</b>	<b>\$1,103,117</b>	<b>70</b>										
<b>Annual Sum of Incentives:</b>			\$22,959	\$53,468	\$97,211	\$152,225	\$210,801	\$193,072	\$161,972	\$115,702	\$58,938	
<b>Cumulative Total</b>			\$22,959	\$76,427	\$173,638	\$325,863	\$536,664	\$729,736	\$891,708	\$1,007,409	\$1,066,347	\$1,066,347

10. This is the estimated amount of the incentive check that would be paid to the company each year. The actual amount will depend on the prorated amount of each first installment and performance each year.

9. The first incentive installment is a prorated adjustment estimated to account for partial year hiring, based on the data provided in the application. The actual amount of the first installment will depend on the number of days each new qualifying hire actually works during their first year. The second through fifth installments are the full earned incentive amount.

NET REVENUE BENEFIT TO STATE OF VERMONT (AFTER ALL COSTS, INCLUDING COST OF INCENTIVES):	\$650,000
--	-----------

12. This is the net amount of tax revenues that will be generated to the State of Vermont by the economic activity of the applicant, after the costs of the incentive and other revenues costs.

11. This is the total net estimated incentive amount that the applicant would be paid, including the prorated adjustment to each first installment. It is an estimate because the actual first installment amounts cannot be known until after each annual incentive is earned.

# VEGI Claims

- ▶ An annual VEGI claim must be filed with the Tax Department through a claim form created by the Tax Department.
- ▶ The Tax Department reviews each claim filed by a company individually.
- ▶ Performance requirements will not be deemed to have been met even if missed by only the smallest of margins.
- ▶ Performance requirements cannot be adjusted after a Final Application is approved.
- ▶ Once the life of a VEGI award has ended, Tax and VEPC can no longer oversee or monitor past participants.

VEGI GRACE PERIOD AND POTENTIAL EXTENSIONS

## HIGHLIGHTS

- ▶ Estimated fiscal return to the State: \$22,620,866
- ▶ Average wage of VEGI job created: \$59,346
- ▶ Disbursement (2007-2016): \$22.6 million
- ▶ New qualifying jobs projected (2007-2023): 3,074

# 2018/2019 VEGI Awards

## What was done in 2018?

- ▶ VEPC considered 13 applications for activities beginning in 2018
  - ▶ 1 initial approval was rescinded
  - ▶ 5 were deferred until next year
  - ▶ 7 were approved
- ▶ At least 10 additional inquiries
- ▶ Max incentives approved come to \$4.6 M
- ▶ The minimum net revenue benefit to the state will be \$1.9 M
- ▶ 408 qualifying full-time jobs
- ▶ \$18.9M in payroll; average wage of more than \$46k
- ▶ \$68.3M in capex
- ▶ 3 LMA enhancements approved (Morrisville, Brattleboro, Randolph)
- ▶ 1 green enhancement approved

## What is happening in 2019 so far?

- ▶ 5 initial applications approved for 2019 activities
- ▶ 447 new qualifying jobs
- ▶ \$8.2M in payroll
- ▶ \$58.5M in capex
- ▶ 1 LMA incentive approved
- ▶ \$511,000 NRB to state

# VEGI Participants (2007-2018)

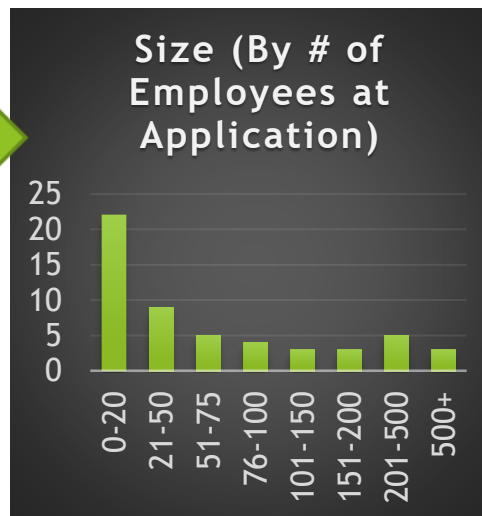

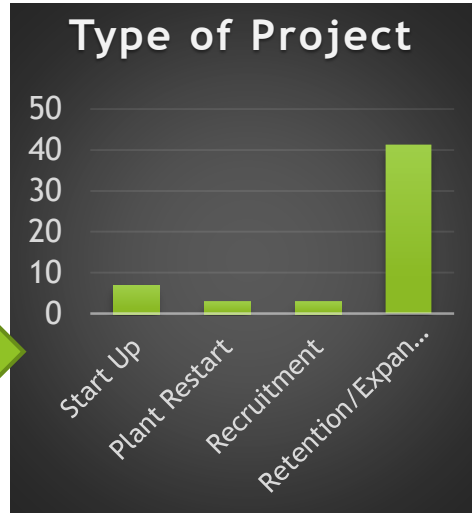

124 Total Participants

## 54 Complete and Active Participants

- Complete- All Incentives Paid- 5
- Complete- In Maintenance- 5
- Within Earning Period- 26
- Initial claim not yet reviewed- 18

5 Participants have been denied

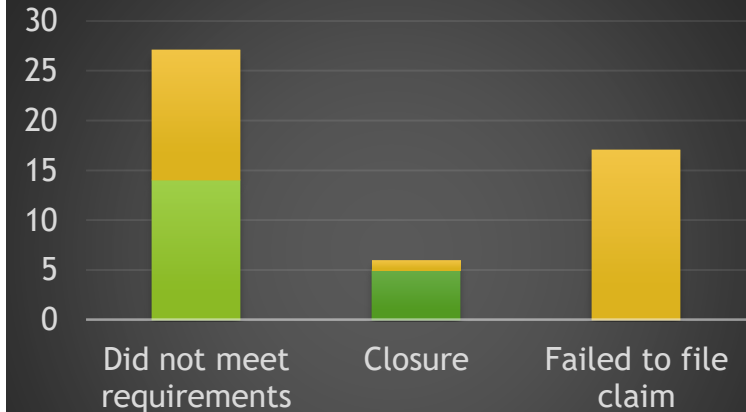

## 15 Rescinded

- Project Occurred in Another State- 5
- Project did not Occur At All- 4
- Project Could Not Find Capital- 3
- No Final App but project stayed in VT- 3

## 50 Terminated

- No Incentives Earned 31
- Recapture 5
- Earned some or all incentive 14

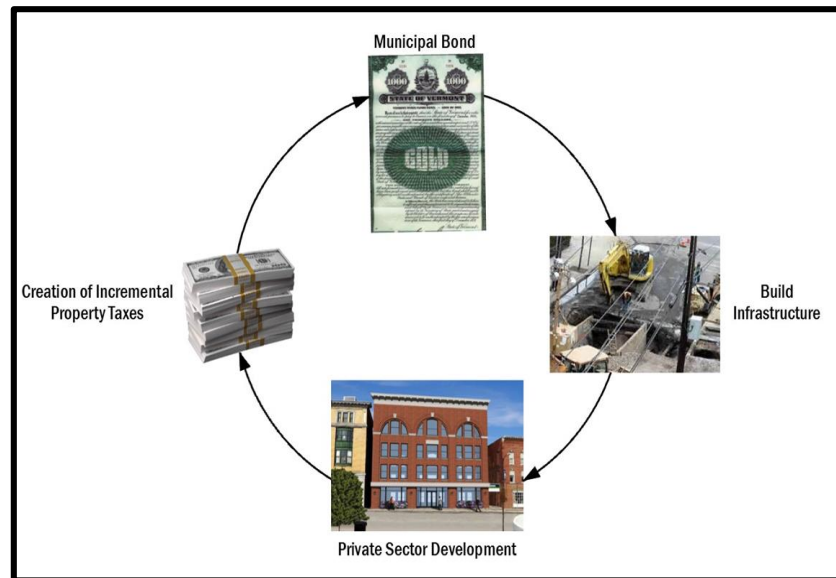

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. The shapes are primarily triangles and polygons, creating a dynamic, layered effect. The text is centered on a white background within this design.

# Vermont Economic Progress Council

Tax Increment Financing Districts

# What are TIF Districts?

- ▶ Financially: A financing tool to build public infrastructure needed to encourage private sector development. The private development then generates new tax revenue to pay for the infrastructure.
- ▶ Geographically: A district, designated by a municipality, where the municipality would like to encourage private sector development.

\*See TIF Overview Appendix

# Tax Increment Financing: Timeline and Revenue Distribution

# Tax Increment Financing

Purpose: To provide revenue, beyond normal municipal budgets and debt load, to develop public infrastructure that will encourage private sector development and/or redevelopment.

Statute specifically requires:

- ▶ Infrastructure improvements must serve the TIF District and stimulate private sector development or redevelopment;
- ▶ Development must provide employment opportunities;
- ▶ Development must improve and broaden the tax base; and
- ▶ Development must enhance the economic vitality of the municipality, region, or state.

# Vermont's TIF Districts (By Date Created)

## PRE-ACT 60 TIF DISTRICTS:

Burlington Waterfront-1996

- Town Center parcels continue until 2035.

Newport City Industrial Park- 1997

- Debt paid off in 2015.

## EATI-ERA TIF DISTRICTS:

Milton North/South-1998

- Retention Period ends in March 2019

## SPECIAL LEGISLATION:

Winooski Downtown- 2000

- Retention period ends 2024.

## POST-ACT 184 (2006) TIF DISTRICTS:

Milton Town Core- 2008

- Retention period = 2011-2031

Colchester- 2010

- 2014 District dissolved by Select Board.

Burlington Downtown- 2011

- Retention period = 2016-2036

Hartford Downtown- 2011

- Retention period = 2014-2034

St Albans City Downtown- 2012

- Retention period = 2013-2033

Barre City Downtown- 2012

- Retention period = 2015-2035

South Burlington City Center- 2012

- Retention period = 2017-2037

## POST-ACT 69 (2017) TIF DISTRICTS:

Bennington Downtown- 2017

- First debt not yet incurred

Montpelier Downtown-2018

- First Debt not yet incurred

- 4 District Opportunities Remain Under Act 69

Data includes newly approved TIF districts in Bennington and Montpelier.</p>	 <b>\$289.8 M</b> Total Incremental Revenue	 <b>\$45.6 M</b> Net Incremental Revenue to Education Fund	 <b>\$214.3 M</b> Public Infrastructure Investment	 <b>\$511.8 M</b> Increase in Property Values

## THROUGH 2017

- ▶ \$55.3 M total incremental revenue generated
- ▶ \$2.5 M of the above total has gone to the Education Fund
- ▶ \$109 M total public infrastructure investment
- ▶ \$335.7 M increase in Education Grand List

Barre's Enterprise Ally Before

Barre Enterprise Ally After

### Why does Vermont have a TIF program?

- Economically feasible development in downtowns is extremely difficult.
- In rural areas costs to build are so high that a return can't be made, making development unattractive.
- Much of Vermont's downtown infrastructure is old and inadequate to meet current needs.
- Each is different and have different needs, but many have issues with parking, sewer lines, water, storm water treatment, housing, and brownfields.
- Funding from State and Federal levels is limited.
- TIF enables public-private partnerships to finance infrastructure and attain development goals.

# TIF Oversight and Monitoring

## VEPC's Continuing Role:

- Oversight and Compliance Monitoring
  - Semi-annual monitoring visits
  - Annual reporting on progress from the TIF districts to VEPC
  - Submittal of annual report to General Assembly by April 1
  - Substantial change requests and non-compliance procedures

## Additional Oversight:

- Annual independent audits
- Performance audits conducted by State Auditor's Office several times during the life of a district
