Subject: Heat Squad program

Dear Ms. Utton,

I am writing you to communicate my support for your wonderful program, Heat Squad Vermont. We had been concerned about our lack of insulation in our older home for years. The Heat Squad people were so kind, professional, and informative that we overcame our reluctance to spend money on this problem and finally do something about it.

Vermonters have some of the most poorly insulated homes in the country and desperately need this program to continue. Please consider how much this is helping people overcome resistance in spending money on such essential fixes.

Thank you for your attention,
Karen Fremerman
