

Public Comment on H.51, H.175, H.214
April 25, 2019

Dear VT Legislative Body,

I am writing in support of bills H.51, S.66 and H.175. It's so important to our communities and world for us to make this commitment to move in the right direction for our safe and beautiful quality of life and futures.

I have two daughters I'm raising in Vermont out of choice. I've lived all over the country and have chosen Vermont as my home because I feel a strong community of wise and grounded people here - many of whom feel the same way as I do, in ultimate support of protecting our natural environment.

Please, please hear our words and hearts, and represent our state's best interest in supporting these bills.

Thank you so much,
Laura
