Subject: Re: H.13 - continuation in House General - Thursday, May 9.

I wanted to be clear on one point in my testimony. I said that ACCD supports the 5% tax in the SED version of the taxation on spirits section. As to the language the Senate added about reviewing mark ups to ensure we don't have lost revenue, we agree with Commissioner Delaney that this feels like overreach and defer to him on whether this is acceptable to the Department.

Thanks again for the invite, and the committee's work on this bill.

Wendy
