Subject: Renter Rebate Reform - Chittenden County Impact

Below is a bar chart that shows our estimate of the reform proposal vs. current law by county. We expect more recipients and more total dollars going to Chittenden county. Helpful provisions of the reform to Chittenden county are the higher income eligibility thresholds (compared to other counties), higher rent/credit amounts (compared to other counties), and the ability of people in shared living situations to file individual claims (since there are probably proportionally more of those in Chittenden county than other counties).
