

Young, et. al., Amendment to S.54

February 26, 2020

- Requires Cannabis Control Board in its Jan. 15, 2021 report to General Assembly to recommend the amount of local fees to be charged to cannabis licensees. Board must recommend local fees designed to help defray costs incurred by municipalities in which cannabis establishments are located. Local fee recommendation is in addition to recommendation for State fee amounts.
- Creates authority for Cannabis Control Board to charge and collect local licensing fees on cannabis municipalities.
- Separates allocation of fee revenues, so that Board must deposit State fees into Cannabis Regulation Fund, and local fees must be returned to municipality where fees were collected after reduction for costs of administration.
