SUBJECT: Executive Branch Seasonal Temporary Employee Reports – CY 2019

The enclosed reports on seasonal temporary employees in calendar year 2019 are submitted by DHR Commissioner Beth Fastiggi on behalf of Secretary of Administration Susanne Young, in accordance with Act 58 Section 4 of the 2019 Legislative Session. There are five reports, as identified in the legislation:

1. Act 58 Sec 4(1): Number of temporary employees by Agency

This report shows the number of temporary employees, not including individuals working in seasonal employment as defined pursuant to 3 V.S.A. §323(5), who, during the prior calendar year, were employed by each agency and department in a temporary capacity pursuant to 3 V.S.A. §331. There were 1,000 such employees in calendar year 2019.

2. Act 58 Sec 4(2): Temporaries performing ongoing and continuing functions

This report shows the number of temporary positions in each agency or department identified pursuant to subdivision (1) of this section that are performing ongoing and continuing functions of State government for which a permanent classified position would better meet the needs of the State. There are no such positions currently identified at the end of calendar year 2019. During 2019, 165 temporary employees transitioned into classified positions and 4 transitioned to exempt positions. In their new positions, they did not necessarily perform the same duties as in their temporary positions.

3. Act 58 Sec 4(3): Temporaries working 1,280 or more hours over a two-year period

This report shows the number of temporary positions during the prior calendar year, organized by agency and department, not including individuals working in seasonal employment as defined pursuant to 3 V.S.A. §323(5), in which one or more individuals have been employed for a combined total of more than 1,280 hours per year for a period of two years. There were 10 positions identified in calendar year 2019.

4. Act 58 Sec 4(4): Projected cost of temporaries working 1,280 or more hours over a two-year period

This report shows the projected cost and the potential impact of replacing the temporary positions identified in subdivision (3) of this section with permanent, classified positions on the relevant department or agency's efficiency and ability to fulfill its mission and duties. There were 10 positions identified; the total annual compensation costs were calculated to be \$409,203.

5. Act 58 Sec 4(5): Seasonal positions during calendar year 2019

This report shows all the individuals working in seasonal employment as defined pursuant to 3 V.S.A. §323(5) during the prior calendar year organized by agency and department, including the start and end date for each position and the total number of hours worked by the individual employed in each position. There were 882 seasonal positions used in calendar year 2019. As a result of the review conducted by DHR with Agencies and Departments, 99 of these were recategorized into other temporary types during the year.

Act 58 Sec 4(1) the number of temporary employees, not including individuals working in seasonal employment as defined pursuant to 3 V.S.A. §323(5), who, during the prior calendar year, were employed by each agency and department in a temporary capacity pursuant to 3 V.S.A. §331.

NOTE: Beginning July 2019, after Act 58 was passed, DHR began a review of all temporary types of seasonal and temporary positions to ensure each position met the statutory and state policy definitions. DHR has made changes to temporary position types and will continue this analysis through the next calendar year.

Executive Branch Seasonal Months and Hours Worked

Act 58 Sec 4(5) the number of individuals working in seasonal employment as defined pursuant to 3 V.S.A. §323(5) during the prior calendar year organized by agency and department, including the start and end date for each position and the total number of hours worked by the individual employed in each position.

NOTE: Some seasonal employees are active through the turn of the calendar year. This report reflects their actual worked months in CY2019 during two employment seasons (i.e. late winter 2019 and early winter 2019).

Also, during 2019, DHR reviewed the current temporary types and reassigned 99 of the seasonal employees reported here other types of temporary positions, reflecting their actual utilization. The review and recategorizing is ongoing. This report, because it captures any positions identified as seasonal throughout CY2019, somewhat overstates the number of current seasonal employees.

882 individual seasonal positions worked in CY 2019.
