

Truly, what words can anyone borrow, to justify murder of a human life . This division , this stalemate, between choosing life or death will go on now in our country for seemingly until the earth is no longer. If perhaps we would not use abortion as a form of birth control, and revered life as precious, then other divisions in the human race may subside. Perhaps as society, as a whole, considers human life precious, murder rates & crimes against humanity will decrease. Who will blink first? God help us all to love & respect each other & see life as precious at any stage of life. Please & always choose life & vote against H-57.

Respectfully: Bruce D'Amico, Waterbury,Vt
