

I hope to be here in person for this hearing, but I will voice my opinion in writing.

An unborn baby has no voice, the mother has to be the voice for an innocent baby's life. Only GOD has the right to give and take life, we as mere humans have made it our right to do as we so selfishly please, regardless of a sweet, unborn baby. It is time to give the innocent a voice, and not take their life at the whims of an inconvenience to someone. There are extenuating circumstances and I understand that, but even a rape victim can give up that baby to the thousands of couples that are unable to conceive.

Too many innocent babies have been aborted and it is time to remember what God's laws are. God forgive them all!

Please consider my opinion when this bill h57 is on the table!! Thank you!
