

I wish to speak against the passage of H.57. I believe life begins at conception and that a baby in the womb is a person, created by God in His image. I believe it is wrong for any person to decide to take the life of another person, whether in the womb or anytime during a person's life. God has numbered our days and He will choose when our life is to begin in the womb and when we will die. Thank you for your consideration. Edward Chase, 80 Covey Road, Westford, VT 05494
