

Dear Vt.Legislature; I was unable to get to Montpelier for the Hearing on Abortion law in Vermont. I would request that this bill NOT be approved. As a Christian and long time health care professional I cannot stand idly back and be quiet.I realize that many of you have no use or Regard for" The Religious" aspect of this debate. But if you have ever listened to the Heartbeat of the in utero child. I cannot understand how it can be said it is Not a living being and for those Women that have been pregnant and felt the baby kicking say the same .To say these little ones are non-persons, is the same as the Nazis said about all the Jews they murdered. We have killed Millions of babies because through NO FAULT of their own they were "INCONVENIENT." So we MURDER them. is that what a civilized people does? If the answer is YES , then LORD help us. I always was taught that a person in this country has a right to life liberty and justice. How do any of those ideals apply to an unborn child.? So then you say it is not yet a person to which I reply check out when organs are formed and working? How can one say that life does not begin at conception?

Although it has nothing to do with Vermont, I am Horrified that a state close to our border will allow Killing a baby as it is delivered( or as it was termed by one person "The Fourth trimester)!!" This country will be judged by God one day for its murder of little ones made in HIS Image.

Thank you for your time and consideration/// Forrest E Williams, 14 Lawridge Hts. , Ludlow Vermont 05149

Please do all you can to be sure this bill does not pass
