

In regards to the House Bill H57:

I cannot believe any human being with a working heart, a functioning brain, a conscience, and a caring heart can think this bill allowing an abortion—the killing of a baby human being— even after birth—is acceptable. Yes, I'm speaking to our legislators on this bill and those who support them. These people who think this atrocity is OK are in the same category as the perpetrators of the inhumane Holocaust. And we all thought those people were evil. This bill is beyond EVIL.

These tiny human beings are created by God (if you believe) in His image in the miracle of life. Shame on you all who support this atrocity. God help our state and country to see the light.
