

I feel like I have less and less of a voice in the state that I have been raised in and lived in for 61 years. I don't even recognize the politics of my home anymore!

I have always been a woman that believes in pro-choice. I just believe that once a woman has chosen to sleep with somebody she has made her choice!!!

I understand complications and extenuating circumstances but I don't understand not having An ability to make a decision long before nine months!

To terminate a viable life can only be done by someone who does not have a viable soul!!

This is too much! Too far! Please do not pass this bill.

With a heart of compassion
