

Why is it considered a double homicide in 30+ states in this union if a pregnant woman is murdered if an unborn baby has no rights? This is entirely inconsistent with H.57 and confirms that the American people (including Vermont) believe that an unborn baby *does* have a right to life, not the blatant disrespect for life as it is worded in this bill: "A fertilized egg, embryo, or fetus shall not have independent rights under Vermont law." I would ask all supporters of this bill this one question: " H.57 is nothing more than a thin veil to protect murder rights of those who would seek to destroy life for their own comfort and convenience. Please think before voting for this all-too all encompassing and general bill.
