

I am writing to voice my vehement disapproval of the H.57 abortion bill. It is unimaginable that an individual could be allowed to decide whether or not their baby lives right up to the time of delivery. This is taking "human rights " just too far. Those who advocate the practice of abortion already have the blood of millions of innocent babies on their hands. The passing of this bill just adds one atrocity on top of another. This bill must not pass.

Sincerely,
Leslie Brodfuehrer
