

I am a fellow Vermont woman who respects you and your appointment as committee assistant. Please know that I appreciate that you are in a difficult situation and whatever your views, I honor you.

I feel as a Vermont woman and historian that this bill is one of the most difficult and important our state may ever face. We are currently alive and living at a time in history that is pivotal for human rights of the most helpless humans of all: those who can not speak for themselves and are helpless to run or hide. These are the unborn children whom I consider equals in this time and country when and where the rights of all should be honored.

Please know that I unequivocally oppose Bill H-57; please also know that you may call me or email me at any time to further discuss. You or others concerned may reply or call me at 802.343.4303.

Thank you so much for reading my email.

Respectfully,  
~Marisa Hamilton of Lincoln Vermont: Registered Voter.
