

Thank you for the opportunity to express my distress regarding the consequences that the Act H.57 brings in women, society and most importantly the unborn:

(a) Every individual has the fundamental right to choose or refuse contraception or sterilization. - **That is to deny the first and for most important right to the human person: The Right to live!**

(b) Every individual who becomes pregnant *has the fundamental right* to choose to carry a pregnancy to term, give birth to a child, or *to have an abortion*. - **This means that we would be giving permission to any "individual" to commit murder against the most vulnerable - the baby... a person who's right to live is being taken away!! why? for the sake of the unscrupulous who's only desire is to make themselves rich by killing the most innocent and vulnerable persons! - because let us not forget that abortions are never free! ... who's interest is then for this law to pass?**

(c) A fertilized egg, embryo, or fetus shall not have independent rights under Vermont law. - **Bluntly deciding to make legal infanticide for the sake of the money involved to all of those "open minded" but in reality they are just opened to the business of death for the sake of MONEY!!! - Money covered in the most innocent blood!**

THESE NEEDS TO STOP!! I invite you to close your eyes and think what would have happened if by this "H.57 of death" you wouldn't be alive today or even the most especial and important people in your life?!

Respectfully,

Pam King
