

**As a physician, a woman, a mother and a voter I would like support H.57. I hope that we will never need this bill in Vermont to keep reproductive rights in Vermont. Women should always have a right to save private medical care. This right should never be threatened by political whims and religious leaders. I would encourage you to support H.57 to Protect Vermont Women's Access to Reproductive Rights**

**Sincerely,  
Patti OBrien MD**
