

I am AGAINST this bill. Every human has a right to life. We are created in the image of God and we are a special creation. It sickens me to think that animals have more rights than a human. What have we become as a nation? It is wrong!

The government is already concerned about the decline in the population and you are going to make it much easier, if the bill is passed, to continue to cause the human race to become non-existent!

Please do not pass this bill.
