

I am writing today to express my firm disapproval of H57 currently being discussed by this committee. I am appalled by the thought that any of our States elected officials could even consider this bill. A bill that has a complete disregard for human life is certainly a sad commentary on those legislators who are supporting these procedures.

I am following this bill and will certainly remember those names that ever vote in favor of H57 in the voting booth.

Sincerely,  
Saundra Dubois  
Swanton, Vermont
