

Hello,

Please do NOT decriminalize sex workers. They need help, not encouragement to continue. I'm sure you've heard all the arguments but these ladies need help to get out of a forced trade (forced for one reason or another). Decriminalizing this trade will not ever help them in any way (even to losing their apartments) and will lead to further abuse & harmed health, mentally & physically. If things get bad enough for them, perhaps they'll seek help especially if there's an organization known to help them. THAT would be something to vote for.

Thank you.
