

Dear VT House Judiciary Committee Members:

I will keep my input brief, since you will, in all likelihood, summarily disregard it in any case.

The aforementioned bill will do NOTHING to stop suicide, or crime, or negligence. You already, in your hearts, know this.

This bill is merely another incremental step towards abolishing private ownership of firearms altogether. And through your past actions you have already demonstrated your passionate will towards this final goal.

The purported purpose of government is not "safety." Government is never "safe." Its only ostensible purpose is to PROTECT AND SAFEGUARD RIGHTS. Period. Of course, its \*actual\* purpose is to tyrannize, terrorize, dominate, and control. And that purpose has, in truth and in practice, never been anything but.

If you vote to advance these latest assaults on the populace, you will have proven my point. And I'm sure you're quite eager to do so.

Truthfully,

Alex Knight  
Marlboro
