

Good Afternoon,

Vermont does not need S.169 or any other infringing gun laws. In fact, we need to repeal S.55 from last April.

A waiting period does nothing to curb violence/suicides. I would rather those intent on killing themselves to do so quickly with a firearm than to find other means such as head-on collisions on a public highway endangering, once again, innocent lives such as my family and friends.

NO NEW GUN LAWS!

Jeremiah Caron
