

Hello I live in Sheldon Vermont.  
Please pass this on to the Judicial committee.

I am concerned that the Vermont State Legislature is passing laws that will have unintended consequences such as gun control laws.

As you are aware I have been reading about Vermont budget deficits. Any gun legislation if passed will definitely have lawsuits filed in Federal Court that the law violates the US Constitution.

Wherefore extra funding will be needed to ensure that any gun laws pass may result additional budget funds to defend any lawsuit adding to Vermont Budget deficit. Please ensure that whatever law you pass will be vetted before hand that people who are against gun control will find it not worthwhile to sue the State.

I thank you for your attention.

John Bielicki
