

I am writing to express my desire that you and all elected representatives DO NOT pass this bill as it is written; vote it down! I am specifically opposed to the provisions of a 24 hour waiting period, or ANY waiting period, for taking possession of ANY firearm once a person has passed the Instant Check and paid for the firearm. I only support those portions of the bill pertaining to eliminating restrictions on so-called "high-capacity" magazines, and transferring those and any firearms or firearm related products and accessories to ANY family member, no matter the degree of relation.

Vermonters continue to be one the states whose residents are the most responsible gun owners, and we do not need more regulations to restrict our rights. Remember, we are nicknamed "The Green Mountain Boys" for a reason, and we have very long memories when election time rolls around.

Respectfully submitted,

Mike Allen
