

This is how I see s 169:

1. It is just a little bit more gun control. To add to more from last year. To be followed up by a little more next year. Proponents will agree that it wont make much difference but the we must "do something".
2. Out of state money is how this gets accomplished.
3. This will only punish law abiding citizens. 99 percent of all suicide victims/perpetrators have access to firearms rather buy one just for "the act". Last years tragic death, is pretty rare scenario. We can't legislate all scenarios.

NO on 169

Thank you,
Ryan O'Malley
