4 (A) where 10 or more full-time employees have been employed at
5 any one time; or

6 (B)(i) where an activity within the Standard Industrial Classification
7 code of 20 through 39 is conducted or was conducted; and

8 (ii) that is owned or operated by a person who, when all facilities
9 or establishments that the person owns or controls are aggregated, has
10 employed 500 employees at any one time.

11 (6) “Medical monitoring” means a program of ~~medical surveillance~~
12 ~~tests, including~~ medical tests or procedures for the purpose of early detection
13 of signs or symptoms of a latent disease resulting from exposure.

14 (7) “Person” means any individual; partnership; company; corporation;
15 association; unincorporated association; joint venture; trust; municipality; the
16 State of Vermont or any agency, department, or subdivision of the State;
17 federal agency; or any other legal or commercial entity.

18 (8) “Release” means any ~~intentional or unintentional, permitted or~~
19 ~~unpermitted,~~ act or omission that allows a toxic substance to enter the air, land,

1 surface water, or groundwater, or any other place where the toxic substance
2 may be located.

3 (9) “Tortious conduct” means negligence, trespass, nuisance, product
4 liability, or common law liability for ultra-hazardous or abnormally dangerous
5 activity.

6 (10)(A) “Toxic substance” means any substance, mixture, or compound
7 that has the capacity to produce may cause personal injury or illness disease to
8 humans through ingestion, inhalation, or absorption through any body surface
9 and that satisfies one or more of the following:

10 (i) the substance, mixture, or compound is listed on the U.S.
11 Environmental Protection Agency Consolidated List of Chemicals Subject to
12 the Emergency Planning and Community Right-To-Know Act, Comprehensive
13 Environmental Response, Compensation and Liability Act, and Section 112(r)
14 of the Clean Air Act;

15 (ii) the substance, mixture, or compound is defined as a
16 “hazardous material” under 10 V.S.A. § 6602 or under rules adopted under
17 10 V.S.A. chapter 159;

18 (iii) testing has produced evidence, recognized by the National
19 Institute for Occupational Safety and Health or the U.S. Environmental

1 Protection Agency, that the substance, mixture, or compound poses acute or
2 chronic health hazards;

3 (iv) the Department of Health has issued a public health advisory
4 for the substance, mixture, or compound; or

5 (v) the Secretary of Natural Resources has designated the
6 substance, mixture, or compound as a hazardous waste under 10 V.S.A.
7 chapter 159; or

8 (vi) exposure to the substance is shown by expert testimony to
9 increase the risk of developing a latent disease.

10 (B) “Toxic substance” shall not mean:

11 (i) a pesticide regulated by the Secretary of Agriculture, Food
12 and Markets; or

13 (ii) ammunition or components thereof, firearms, air rifles,
14 discharge of firearms or air rifles, or hunting or fishing equipment or
15 components thereof.

16 § 7202. MEDICAL MONITORING FOR EXPOSURE TO TOXIC

17 SUBSTANCES

18 (a) A person with or without a present injury or disease shall have a cause
19 of action for the remedy of medical monitoring against a person who released a

1 toxic substance from a large facility if all of the following are demonstrated by
2 a preponderance of the evidence:

3 (1) The person was exposed to the toxic substance as a result of tortious
4 conduct by the person who released the toxic substance.

5 (2) There is a probable link between exposure to the toxic substance and
6 a latent disease.

7 (3) (2) As a proximate result of the release, the person's exposure to the
8 toxic substance increases the risk of developing a latent disease. A person
9 does not need to prove that the latent disease is certain or likely to develop as a
10 result of the exposure.

11 (4) (3) Diagnostic testing is reasonably necessary. Testing is reasonably
12 necessary if a physician would recommend testing for the purpose of detecting
13 or monitoring the latent disease based on the person's exposure would
14 prescribe a monitoring regime different from what would normally be
15 recommended in the absence of exposure for the purpose of detecting or
16 monitoring the latent disease.

17 (5) (4) Medical tests or procedures exist to detect the latent disease.

18 (b) A person's present or past health status shall not be an issue in a claim
19 for medical monitoring.

1 (c) If the cost of medical monitoring is awarded, a court shall order the
2 liable person to fund defendant found liable to pay the award to a court-
3 supervised medical monitoring program administered by one or more health
4 professional.

5 (d) Upon an award of medical monitoring under subsection (c), the court
6 shall award to the plaintiff reasonable attorney’s fees and other litigation costs
7 reasonably incurred.

8 (e) Nothing in this chapter shall be deemed to preclude the pursuit of any
9 other civil or injunctive remedy or defense available under statute or common
10 law, including the right of any person to seek to recover for damages related to
11 the manifestation of a latent disease. The remedies and defenses in this chapter
12 are in addition to those provided by existing statutory or common law.

13 ~~(f) This section does not preclude a court from certifying a class action for~~
14 ~~the remedy of medical monitoring.~~

15 (f) This section shall not increase the rights and remedies available under
16 21 V.S.A. chapter 9 to an employee who suffers a personal injury by accident
17 arising out of and in the course of employment, provided that 21 V.S.A.
18 chapter 9 shall not limit the right of a person who has not suffered a personal
19 injury by accident arising out of and in the course of employment to bring a
20 cause of action for medical monitoring.
