Sec. 1. 20 V.S.A. § 2358(f) is added to read:

(f) The criteria for all minimum training standards under this section shall include Advanced Roadside Impaired Driving Enforcement training as approved by the Vermont Criminal Justice Training Council. On or before December 31, 2020, law enforcement officers shall receive a minimum of 16 hours of training as required by this subsection.

Sec. 2. 23 V.S.A. § 1200 is amended to read:

§ 1200. DEFINITIONS

As used in this subchapter:

* * *

(3) “Evidentiary test” means a breath, saliva, or blood test which that indicates the person’s alcohol concentration or the presence of other drug and which that is intended to be introduced as evidence.

* * *

Sec. 3. 23 V.S.A. § 1201 is amended to read:

§ 1201. OPERATING VEHICLE UNDER THE INFLUENCE OF ALCOHOL OR OTHER SUBSTANCE; CRIMINAL REFUSAL;

ENHANCED PENALTY FOR BAC OF 0.16 OR MORE

(a) A person shall not operate, attempt to operate, or be in actual physical control of any vehicle on a highway:

(1) when the person’s alcohol concentration is;
(A) 0.08 or more, or

(B) 0.02 or more if the person is operating a school bus as defined in subdivision 4(34) of this title; or

(C) 0.04 or more if the person is operating a commercial vehicle as defined in subdivision 4103(4) of this title; or

(2) when the person is under the influence of alcohol; or

(3) when the person is under the influence of any other drug or under the combined influence of alcohol and any other drug; or

(4) when the person’s alcohol concentration is 0.04 or more if the person is operating a commercial motor vehicle as defined in subdivision 4103(4) of this title.

(b) A person who has previously been convicted of a violation of this section shall not operate, attempt to operate, or be in actual physical control of any vehicle on a highway and refuse a law enforcement officer’s reasonable request under the circumstances for an evidentiary test where the officer had reasonable grounds to believe the person was in violation of subsection (a) of this section.

(c) A person shall not operate, attempt to operate, or be in actual physical control of any vehicle on a highway and be involved in an accident or collision resulting in serious bodily injury or death to another and refuse a law enforcement officer’s reasonable request under the circumstances for an
evidentiary test where the officer has reasonable grounds to believe the person has any amount of alcohol or drugs in his or her system.

* * *

(i) Evidence of the results of a standardized field sobriety test conducted by a law enforcement officer trained in Advanced Roadside Impaired Driving Enforcement or a certified Drug Recognition Expert’s systematic evaluation of observable signs and symptoms of a person charged with a violation of this section shall be admissible at trial to demonstrate whether or not the person was operating under the influence in violation of this section.

Sec. 4. 23 V.S.A. § 1202 is amended to read:

§ 1202. CONSENT TO TAKING OF TESTS TO DETERMINE BLOOD ALCOHOL CONTENT OR PRESENCE OF OTHER DRUG

(a)(1) Implied consent. Every person who operates, attempts to operate, or is in actual physical control of any vehicle on a highway in this State is deemed to have given consent to an evidentiary test of that person’s breath for the purpose of determining the person’s alcohol concentration or the presence of other drug in the blood. The test shall be administered at the direction of a law enforcement officer.

(2) Blood test. If breath testing equipment is not reasonably available or if the officer has reason to believe that the person is unable to give a sufficient sample of breath or saliva for testing or if the law enforcement officer has
reasonable grounds to believe that the person is under the influence of a drug other than alcohol, the person is deemed to have given consent to the taking of an evidentiary sample of blood. If in the officer’s opinion the person is incapable of decision or unconscious or dead, it is deemed that the person’s consent is given and a sample of blood shall be taken. A blood test sought pursuant to this subdivision (2) shall be obtained pursuant to subsection (f) of this section.

(3) Saliva test. If the law enforcement officer has reasonable grounds to believe that the person is under the influence of a drug other than alcohol, or under the combined influence of alcohol and a drug, the person is deemed to have given consent to the taking of an evidentiary sample of saliva. A saliva test sought pursuant to this subdivision (3) shall be obtained pursuant to subsection (f) of this section. Any saliva test administered under this section shall be used only for the limited purpose of detecting the presence of a drug in the person’s body, and shall not be used to extract DNA information.

(4) Evidentiary test. The evidentiary test shall be required of a person when a law enforcement officer has reasonable grounds to believe that the person was operating, attempting to operate, or in actual physical control of a vehicle in violation of section 1201 of this title.

(4)(5) Fatal collision or incident resulting in serious bodily injury. The evidentiary test shall also be required if the person is the surviving operator of
a motor vehicle involved in a fatal incident or collision or an incident or collision resulting in serious bodily injury and the law enforcement officer has reasonable grounds to believe that the person has any amount of alcohol or other drug in his or her system.

(b) A refusal to take a breath or saliva test may be introduced as evidence in a criminal proceeding.

* * *

(f) (1) If a blood test is sought from a person pursuant to subdivision (a)(2) of this section, or if a person who has been involved in an accident or collision resulting in serious bodily injury or death to another refuses an evidentiary test, a law enforcement officer may apply for a search warrant pursuant to Rule 41 of the Vermont Rules of Criminal Procedure to obtain a sample of blood for an evidentiary test. If a blood sample is obtained by search warrant, the fact of the refusal may still be introduced in evidence, in addition to the results of the evidentiary test. Once a law enforcement official begins the application process for a search warrant, the law enforcement official is not obligated to discontinue the process even if the person later agrees to provide an evidentiary breath sample. The limitation created by Rule 41(g) of the Vermont Rules of Criminal Procedure regarding blood specimens shall not apply to search warrants authorized by this section.
(2) If an evidentiary saliva test is sought from a person pursuant to subdivision (a)(3) of this section, a law enforcement officer may apply for a search warrant pursuant Rule 41 of the Vermont Rules of Criminal Procedure to obtain a sample of saliva for the evidentiary test.

(g) The Defender General shall provide statewide 24-hour coverage seven days a week to assure that adequate legal services are available to persons entitled to consult an attorney under this section.

Sec. 5. 23 V.S.A. § 1203 is amended to read:

§ 1203. ADMINISTRATION OF TESTS; RETENTION OF TEST AND VIDEOTAPE

(a) A breath or saliva test shall be administered or taken only by a person who has been certified by the Vermont Criminal Justice Training Council to operate the breath or saliva testing equipment being employed. In any proceeding under this subchapter, a person’s testimony that he or she is certified to operate the breath testing equipment employed shall be prima facie evidence of that fact.

(b) Only a physician, licensed nurse, medical technician, physician assistant, medical technologist, or laboratory assistant, intermediate or advanced emergency medical technician, or paramedic acting at the request of a law enforcement officer may withdraw blood for the purpose of determining the presence of alcohol or another drug. This limitation does not apply...
withdrawal of blood shall not be taken at roadside. These limitations do not apply to the taking of a breath or saliva sample. A medical facility or business may not charge more than $75.00 for services rendered when an individual is brought to a facility for the sole purpose of an evidentiary blood sample or when an emergency medical technician or paramedic draws an evidentiary blood sample.

(c) When a breath test which is intended to be introduced in evidence is taken with a crimper device or when blood or saliva is withdrawn at an officer’s request, a sufficient amount of breath saliva or blood, as the case may be, shall be taken to enable the person to have made an independent analysis of the sample, and shall be held for at least 45 days from the date the sample was taken. At any time during that period the person may direct that the sample be sent to an independent laboratory of the person’s choosing for an independent analysis. The Department of Public Safety shall adopt rules providing for the security of the sample. At no time shall the defendant or any agent of the defendant have access to the sample. A preserved sample of breath shall not be required when an infrared breath-testing instrument is used. A person tested with an infrared breath-testing instrument shall have the option of having a second infrared test administered immediately after receiving the results of the first test.
(d) In the case of a breath, saliva, or blood test administered using an infrared breath testing instrument, the test shall be analyzed in compliance with rules adopted by the Department of Public Safety. The analyses shall be retained by the State. A sample is adequate if the infrared breath testing instrument analyzes the sample and does not indicate the sample is deficient.

Analysis An analysis of the person’s breath saliva or blood which that is available to that person for independent analysis shall be considered valid when performed according to methods approved by the Department of Public Safety. The analysis performed by the State shall be considered valid when performed according to a method or methods selected by the Department of Public Safety. The Department of Public Safety shall use rule making procedures to select its method or methods. Failure of a person to provide an adequate breath or saliva sample constitutes a refusal.

(e) [Repealed.]

(f) When a law enforcement officer has reason to believe that a person may be violating or has violated section 1201 of this title, the officer may request the person to provide a sample of breath for a preliminary screening test using a device approved by the Commissioner of Public Safety for this purpose. The person shall not have the right to consult an attorney prior to submitting to this preliminary breath alcohol screening test. The results of this preliminary screening test may be used for the purpose of deciding whether an arrest
should be made and whether to request an evidentiary test and shall not be
used in any court proceeding except on those issues. Following the screening,
test additional tests may be required of the operator pursuant to the provisions
of section 1202 of this title.

(g) The Office of the Chief Medical Examiner shall report in writing to the
Department of Motor Vehicles the death of any person as the result of an
accident involving a vehicle and the circumstances of such accident within five
days of such death.

(h) A Vermont law enforcement officer shall have a right to request a
breath, saliva or blood sample in an adjoining state or country under this
section unless prohibited by the law of the other state or country. If the law in
an adjoining state or country does not prohibit an officer acting under this
section from taking a breath, saliva, or blood sample in its jurisdiction,
evidence of such sample shall not be excluded in the courts of this State solely
on the basis that the test was taken outside the State.

(i) The Commissioner of Public Safety shall adopt emergency rules relating
to the operation, maintenance, and use of preliminary alcohol screening
devices for use by law enforcement officers in enforcing the provisions of this
title. The commissioner shall consider relevant standards of the
National Highway Traffic Safety Administration in adopting such rules. Any
preliminary alcohol screening device authorized for use under this title shall be
on the qualified products list of the National Highway Traffic Safety Administration.

* * *

Sec. 6. 23 V.S.A. § 1203a(b) is amended to read:

(b) Arrangements for a blood test shall be made by the person submitting to the evidentiary breath or saliva test, by the person’s attorney, or by some other person acting on the person’s behalf unless the person is detained in custody after administration of the evidentiary test and upon completion of processing, in which case the law enforcement officer having custody of the person shall make arrangements for administration of the blood test upon demand but at the person’s own expense.

Sec. 7. 23 V.S.A. § 1204 is amended to read:

§ 1204. PERMISSIVE INFERENCES

* * *

(b) The foregoing provisions shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was under the influence of alcohol or under the combined influence of alcohol and another drug, nor shall they be construed as requiring that evidence of the amount of alcohol or drug in the person’s blood, breath, urine, or saliva must be presented.
Sec. 8. DEPARTMENT OF PUBLIC SAFETY; DRUG RECOGNITION EXPERTS; REPORT

On or before January 15, 2020, the Department of Public Safety shall report to the House and Senate Committees on Judiciary and on Government Operations on its plan to:

1. achieve geographic equity in Drug Recognition Expert availability to conduct roadside evaluations of drivers suspected of violating 23 V.S.A. § 1201 across Vermont; and

2. expand the availability of the Drug Recognition Expert program beyond law enforcement officers to other public safety officials to the extent authorized by the national qualification standards of the International Association of Chiefs of Police and the National Highway Traffic Safety Administration.

Sec. 9. DEPARTMENT OF PUBLIC SAFETY; NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION APPROVED SALIVA TESTING DEVICE; REPORT

Upon the National Traffic Highway Safety Association identifying a threshold level of delta-9 tetrahydrocannabinol concentration in a person’s bloodstream to establish impairment and approving a chemical testing device for roadside use capable of demonstrating such a threshold level of delta-9 tetrahydrocannabinol concentration in a person’s system, the Department of
Public Safety shall report to the House and Senate Committees on Judiciary and on Government Operations on a proposal to implement the use of such a device to evaluate individuals suspected of operating under the influence of marijuana in violation of 23 V.S.A. § 1201.
