

Client Success Story

CL entered our Restorative Reentry Program in June, 2017. She has participated in our Writer's Workshop, Art class, Health Awareness group and has decorated our office with her many wonderful art projects. She recently completed our program and moved to Randolph to help her parents. CL sent us this note:

“To all of you great people, who have brought so much inspiration, courage and motivation to my life, The courage to carry on life sober, and show me the true meaning of friends; without your help I wouldn't be the person I am today. I thank you ever so much. You have brought laughter back into my life... It's folks like you who get people like me to succeed and fulfill my dreams.”

CL continues to stay connected with the Hartford Justice Center and visits our office one day per week. She sent us this note in June, 2018 at her one year anniversary of starting our reentry program:

“I celebrate this day in a risk-free way...as it's the day my life changed for the best when you folks took me in and became my rock.

We've shared lots of good times and hope to make more memories. All of you here at the office are the glue that holds me together.”
