Introduced by

Referred to Committee on

Date:

Subject: Conservation and development; land use; natural resources; Act 250

Statement of purpose of bill as introduced: This bill proposes to make revisions to the State land use law known as Act 250, including:

- Amending the Capability and Development Plan Findings.
- Reorganizing the air and water pollution criteria.
- Amending the transportation, energy conservation, and public investment criteria.
- Amending the criteria to address ecosystem protection through protecting forest blocks and connecting habitat. The bill also would increase the program’s ability to protect ecosystems on ridgelines by reducing the elevation threshold from 2,500 to 2,000 feet.
- Adding new criteria related to climate adaptation and environmental justice.
- Requiring that, to be used in Act 250, local and regional plans must be approved as consistent with the statutory planning goals and clarifying that local and regional plan provisions apply to a project if they meet the same standard of specificity applicable to statutes.
- As part of a balancing of interests to support economic development in compact centers while promoting a rural countryside and protecting
important natural resources, exempting designated downtowns and neighborhood development areas from Act 250 and increasing Act 250 jurisdiction at interstate interchanges and over new roads. Because the designation under 24 V.S.A. chapter 76A would affect jurisdiction, the bill provides for appeal of designation decisions.

- Clarifying the definition of “commercial purpose” so that it is not necessary to determine whether monies received are essential to sustain a project.
- Increasing the per diem rate for District Commissioners and the Board to $100.00 and raising the Act 250 permit fees.
- Amending the permit process by giving the Natural Resources Board the power to issue major permits, in addition to the NRB’s current duties. The Board will have three full time members and major permit applications will be heard by a panel of the Board and District Commissioners. Appeals of Act 250 permits would go to the Supreme Court. The Environmental Division of the Superior Court would continue to hear other permit appeals and enforcement.
- Reaffirming the supervisory authority in environmental matters of the Board and District Commissions, in accordance with the original intent of Act 250 as determined by the Vermont Supreme Court.
- Revising and clarifying the statutory authority on the use of other permits to demonstrate compliance with the criteria.
• Creating a process that would allow properties to be released from Act 250 jurisdiction.

• Requiring slate quarries to be added to the Agency of Natural Resources Natural Resource Atlas.

• Raising the permit fees.

• Establishing a preapplication process to allow municipal and regional planning commissions to weigh in on a project before the Act 250 permit application is filed.

• Allowing forest-based enterprises to operate outside of permitted hours of operations and to mitigate primary agricultural soil on a 1:1 ratio.

• Shifting the burden of persuasion to the applicant under criterion 8.

• Requiring the Agency of Natural Resources to establish a permit program for highest priority river corridors.

An act relating to changes to Act 250

It is hereby enacted by the General Assembly of the State of Vermont:

* * * Revisions to Capability and Development Plan * * *

Sec. 1. 1973 Acts and Resolves No. 85, Sec. 7(a)(20) is added to read:

(20) GREENHOUSE GAS EMISSIONS AND CLIMATE CHANGE
Climate change poses serious risks to human health and safety, functioning ecosystems that support a diversity of species and economic growth, and Vermont’s tourist, forestry, and agricultural industries. The primary driver of climate change in Vermont and elsewhere is the increase of atmospheric carbon dioxide from the burning of fossil fuels, which has a warming effect that is amplified because atmospheric water vapor, another greenhouse gas, increases as temperature rises. Vermont should minimize its emission of greenhouse gases and, because the climate is changing, ensure that the design and materials used in development enable projects to withstand an increase in extreme weather events and adapt to other changes in the weather and environment.

Sec. 2. 1973 Acts and Resolves No. 85, Sec. 7(a)(2) is amended to read:

(2) ECOSYSTEM PROTECTION AND UTILIZATION OF NATURAL RESOURCES

(A) Healthy ecosystems clean water, purify air, maintain soil, regulate the climate, recycle nutrients, and provide food. They provide raw materials and resources for medicines and other purposes. They are at the foundation of civilization and sustain the economy. These ecosystem services are the state’s natural capital.
(B) Biodiversity is the key indicator of an ecosystem’s health. A wide variety of species copes better with threats than a limited number of species in large populations.

(C) Products of the land and the stone and minerals under the land, as well as the beauty of our landscape are principal natural resources of the state.

(D) Preservation of healthy ecosystems in Vermont, preservation of the agricultural and forest productivity of the land; and the economic viability of agricultural units, conservation of the recreational opportunity afforded by the state’s hills, forests, streams and lakes, wise use of the state’s non-renewable earth and mineral reserves, and protection of the beauty of the landscape are matters of public good. Uses which threaten or significantly inhibit these healthy ecosystems and the state’s natural and scenic resources should be permitted only when the public interest is clearly benefited thereby.

Sec. 3. 10 V.S.A. chapter 151 is amended to read:

If an application fee was paid previously in accordance with subdivisions (a)(1) through (4) of this section, the Chair may waive all or part of the fee for a new or revised project if the Chair finds that the impacts of the project have been reviewed in an applicable master permit application, or that the project is not significantly altered from a project previously reviewed, or that there will be substantial savings in the review process due to the scope of review of the previous applications.

(1) In reviewing this petition, the District Commission shall consider the following:

(A) Whether a portion of the project’s impacts have been reviewed in a previous permit;

(B) Whether the project is being reviewed as a major application, minor application, or administrative amendment;
(C) Whether the applicant relies on any presumptions permitted under subsection 6086(d) of this title and has, at the time of the permit application, already obtained the permits necessary to trigger the presumptions. If a presumption is rebutted, the District Commission may require the applicant to pay the previously waived fee.

(D) Whether the applicant has engaged in any preapplication planning that will result in a decrease in the amount of time the District Commission will have to consider the application.

(2) The District Commission shall issue a written decision in response to any application for a fee waiver. The written decision shall address each of the factors in subdivision (1) of this subsection.

(3) If the classification of an application is changed from an administrative amendment or minor application to a major application, the Board may require the applicant to pay the previously waived fee.

(g) A Commission or the Natural Resources Board may require any permittee to file a certification of actual construction costs and may direct the payment of a supplemental fee in the event that an application understated a project’s construction costs. (3) Timeliness. A petition for party status pursuant to subdivision (c)(1)(E) of this section must be made at or prior to an initial prehearing conference held pursuant to Board rule or at the commencement of the hearing,
whichever shall occur first, unless the **District Commission Board** directs otherwise. (4) Conditions. Where a person has been granted party status pursuant to subdivision (c)(1)(E) of this section, the **District Commission Board** shall restrict the person’s participation to only those issues in which the person has demonstrated an interest, and may encourage the person to join with other persons with respect to representation, presentation of evidence, or other matters in the interest of promoting judicial efficiency.

through one or more duly authorized representatives at any prehearing
conference or at any other times deemed appropriate by the Natural Resources
Board or by the District Commission, shall promote expeditious, informal, and nonadversarial resolution of issues, require the timely exchange of information concerning the application, and encourage participants to settle differences. No District Commissioner who is participating as a decisionmaker in a particular case may act as a duly authorized representative for the purposes of this subsection. These efforts at dispute resolution shall not affect the burden of proof on issues before a Commission or the Environmental Division Board, nor shall they affect the requirement that a permit may be issued only after the issuance of affirmative findings under the criteria established in section 6086 of this title.

(f) A hearing shall not be closed until a Commission provides an opportunity to all parties to respond to the last permit or evidence submitted. Once a hearing has been closed, a Commission shall conclude deliberations as soon as is reasonably practicable. not endanger the health, safety, or welfare of the public or of adjoining
landowners.

(F) Shorelines. A permit will be granted whenever it is demonstrated
by the applicant that, in addition to all other criteria, the development or
subdivision of shorelines must of necessity be located on a shoreline in order to
fulfill the purpose of the development or subdivision, and the development or
subdivision will, insofar as possible and reasonable in light of its purpose:

District Commission shall take into consideration the growth in population
experienced by the town and region in question and whether or not the
proposed development would significantly affect their existing and potential
financial capacity to reasonably accommodate both the total growth and the
rate of growth otherwise expected for the town and region and the total growth
and rate of growth which would result from the development if approved. After
considering anticipated costs for education, highway access and maintenance,
sewage disposal, water supply, police and fire services, and other factors
relating to the public health, safety, and welfare, the Board or District
Commission shall impose conditions which prevent undue burden upon the
town and region in accommodating growth caused by the proposed

ensure compliance. The requirements and conditions incorporated from
Title 24 may be applied whether or not a local plan has been adopted. General
requirements and conditions may be established by rule of the Natural
Resources Board.

(A) A permit condition that sets hours of operation for a forest-based
enterprise shall only be imposed to mitigate an impact under subdivision
(a)(1), (5), or (8) of this section.

(B) Unless an impact under subdivision (a)(1) or (5) of this section
would result, a permit issued to a forest-based enterprise shall allow the
enterprise to ship and receive forest products outside permitted hours of operation. These permits shall allow for deliveries of forest products from the forestry operation to and from the enterprise outside of permitted hours of operation, including nights, weekends, and holidays, for a minimum of 60 days per year.

(C) In making a determination under this subdivision (2) as to whether an impact exists, the Board or District Commission shall consider the enterprise’s role in sustaining forestland use and the impact of the permit condition on the forest-based enterprise. Conditions shall impose the minimum restriction necessary to address the undue adverse impact.

(3) Permit conditions on the delivery of wood heat fuels. A permit issued to a forest-based enterprise that produces wood chips, pellets, cord wood, or other fuel wood used for heat shall allow shipment of that fuel wood from the enterprise to the end user outside permitted hours of operation, including nights, weekends, and holidays, from October 1 through April 30 of each year.

(4) Forest-based enterprises holding a permit may request an amendment to existing permit conditions related to hours of operation and seasonal restrictions to be consistent with subdivisions (2) and (3) of this subsection. Requests for condition amendments under this subsection shall not be subject to Act 250 Rule 34E.
(d) Other permits and approvals; presumptions. The Natural Resources Board may by rule shall allow the acceptance of a permit or permits or approval of any State agency with respect to subdivisions (a)(1) through (5) of this section or a permit or permits of a specified municipal government with respect to subdivisions (a)(1) through (7) and (9) and (10) of this section, or a combination of such permits or approvals, in lieu of evidence by the applicant. A District Commission, in accordance with rules adopted by the Board, shall accept determinations issued by a development review board under the provisions of 24 V.S.A. § 4420, with respect to local Act 250 review of municipal impacts. The acceptance of such approval, positive determinations, permit, or permits shall create a presumption that the application is not detrimental to the public health and welfare with respect to the specific requirement for which it is accepted. In the case of approvals and permits issued by the Agency of Natural Resources, technical determinations of the Agency shall be accorded substantial deference by the Commissions. The acceptance of negative determinations issued by a development review board under the provisions of 24 V.S.A. § 4420, with respect to local Act 250 review of municipal impacts shall create a presumption that the application is detrimental to the public health and welfare with respect to the specific requirement for which it is accepted. Any determinations, positive or negative, under the provisions of 24 V.S.A. § 4420 shall create presumptions only to the
extent that the impacts under the criteria are limited to the municipality issuing the decision. Such a rule may be revoked or amended pursuant to the procedures set forth in 3 V.S.A., chapter 25, the Vermont Administrative Procedure Act.

(1) The rules adopted by the Board shall not approve the acceptance of a permit or approval of such an agency or a permit of a municipal government unless it satisfies the appropriate requirements of subsection (a) of this section.

(2) A presumption created under this subsection may be rebutted by the introduction of evidence contrary to the presumed fact.

(3) The Board or District Commission, in accordance with rules adopted by the Board, shall accept determinations issued by a development review board under the provisions of 24 V.S.A. § 4420, with respect to local review of municipal impacts under criteria of this section. The acceptance of such a determination, if positive, shall create a presumption that the application is not detrimental to the public health and welfare with respect to the specific requirement for which it is accepted and, if negative, shall create a presumption that the application is so detrimental. Any determinations, positive or negative, under the provisions of 24 V.S.A. § 4420 shall create presumptions only to the extent that the impacts under the criteria are limited to the municipality issuing the decision. If a municipality fails to respond to a request by the applicant within 90 days as to the impacts related to subdivision
(a)(6) or (7), the application will be presumed not to have an unreasonable burden on educational, municipal, or governmental services.

* * *

(f) Prior to any appeal of a permit issued by the Board or a District Commission, any aggrieved party may file a request for a stay of construction with the Board or District Commission together with a declaration of intent to appeal the permit. The stay request shall be automatically granted for seven days upon receipt and notice to all parties and pending a ruling on the merits of the stay request pursuant to Board rules. The automatic stay shall not extend beyond the 30-day appeal period unless a valid appeal has been filed with the Environmental Division Supreme Court. The automatic stay may be granted only once under this subsection during the 30-day appeal period. Following appeal of the District Commission decision, any stay request must be filed with the Environmental Division Supreme Court pursuant to the provisions of chapter 220 of this title. Resources, district environmental coordinators, and District Commissions,
excluding enforcement actions brought pursuant to chapters 201 and 211 of
this title and the adoption of rules under 3 V.S.A. chapter 25;

at the initial stages of review by a District Commission by requiring
participation as a prerequisite for an appeal of a District Commission decision to the Environmental Division;

(4) ensure that clear appeal routes exist for acts and decisions of the Secretary of Natural Resources;

(5) consolidate appeals of decisions related to renewable energy generation plants and telecommunications facilities with review under, respectively, 30 V.S.A. §§ 248 and 248a, with appeals and consolidation of proceedings pertaining to telecommunications facilities occurring only while 30 V.S.A. § 248a remains in effect.

§ 8504. APPEALS TO THE ENVIRONMENTAL DIVISION

(a) Act 250 and Agency appeals. (c) Notice of the filing of an appeal.

general circulation in the area of the project which is the subject of the
decision.

(2) Upon the filing of an appeal from the act or decision of the Secretary
under the provisions of law listed in section 8503 of this title, the appellant
shall provide notice of the filing of an appeal to the following persons: the
applicant before the Agency of Natural Resources, if other than the appellant;

shall publish notice not more than 10 days after providing notice as required
under this subsection, at the appellant’s expense, in a newspaper of general
circulation in the area of the project which is the subject of the decision.

(3) In the case of appeals under 24 V.S.A. chapter 117, notice shall
be as required under 24 V.S.A. § 4471.
(d) Requirement to participate before the District Commission or the Secretary.

(1) Participation before District Commission. An aggrieved person shall not appeal an act or decision that was made by a District Commission unless the person was granted party status by the District Commission pursuant to subdivision 6085(c)(1)(E) of this title, participated in the proceedings before the District Commission, and retained party status at the end of the District Commission proceedings. In addition, the person may only appeal those issues under the criteria with respect to which the person was granted party status. However, notwithstanding these limitations, an aggrieved person may appeal an act or decision of the District Commission if the Environmental judge determines that:

(A) there was a procedural defect that prevented the person from obtaining party status or participating in the proceeding;

(B) the decision being appealed is the grant or denial of party status;

or

(C) some other condition exists which would result in manifest injustice if the person’s right to appeal was disallowed.

(2) Participation before the Secretary.

(A) An aggrieved person shall not appeal an act or decision of the Secretary unless the person submitted to the Secretary a written comment
during the comment period or an oral comment at the public meeting conducted by the Secretary. In addition, the person may only appeal issues related to the person’s comment to the Secretary.

1. (i) (A) To be sufficient for the purpose of appeal, a comment to the Secretary shall identify each reasonably ascertainable issue with enough particularity so that a meaningful response can be provided.

2. (ii) (B) The appellant shall identify each comment that the appellant submitted to the Secretary that identifies or relates to an issue raised in his or her appeal.

3. (iii) (C) A person moving to dismiss an appeal or an issue raised by an appeal pursuant to this subdivision (A)(1) shall have the burden to prove that the requirements of this subdivision (A)(1) are not satisfied.

4. (B)(2) Notwithstanding the limitations of subdivision (2)(A)(1) of this subsection, an aggrieved person may appeal an act or decision of the Secretary if the Environmental judge determines that:

5. (i) (A) there was a procedural defect that prevented the person from commenting during the comment period or at the public meeting or otherwise participating in the proceeding;

6. (ii) (B) the Secretary did not conduct a comment period and did not hold a public meeting;
(iii) the person demonstrates that an issue was not reasonably ascertainable during the review of an application or other request that led to the Secretary’s act or decision; or

(iv) some other condition exists which would result in manifest injustice if the person’s right to appeal was disallowed.

(e) Act 250 jurisdictional determinations by a district coordinator.

(1) The appellant shall provide notice of the filing of an appeal to each person entitled to notice under subdivisions 6085(c)(1)(A) through (D) of this title, to each person on an approved subdivision 6085(c)(1)(E) list, and to the Natural Resources Board.

(2) Failure to appeal within the time required under subsection (a) of this section shall render the decision of the district coordinator under subsection 6007(c) of this title the final determination regarding jurisdiction under chapter 151 of this title unless the underlying jurisdictional opinion was not properly served on persons listed in subdivisions 6085(c)(1)(A) through (D) of this title and on persons on a subdivision 6085(c)(1)(E) list approved under subsection 6007(c) of this title.

(f) Stays.

(1) The filing of an appeal shall automatically stay the act or decision in the following situations:
(A) acts or decisions involving stream alteration permits or shoreline
encroachment permits issued by the Secretary;

(B) the denial of interested person status by a board of adjustment,
planning commission, or development review board.

(2) Upon petition by a party or upon its own motion for a stay of an act
or decision, the Environmental Division shall perform the initial review of the
request and may grant a stay. Any decision under this subsection to issue a stay
shall be subject to appeal to the Supreme Court according to the Rules of
Appellate Procedure.

(f) Consolidated appeals. The Environmental Division may consolidate
or coordinate different appeals where those appeals all relate to the same
project.

(g) De novo hearing. The Environmental Division, applying the
substantive standards that were applicable before the tribunal appealed from,
shall hold a de novo hearing on those issues which have been appealed, except
in the case of:

(1) a decision being appealed on the record pursuant to 24 V.S.A.
chapter 117;

(2) a decision of the Commissioner of Forests, Parks and Recreation
under section 2625 of this title being appealed on the record, in which case the
court shall affirm the decision, unless it finds that the Commissioner did not
have reasonable grounds on which to base the decision.

(i) Deference to Agency technical determinations. In the
adjudication of appeals relating to land use permits under chapter 151 of this
title, technical determinations of the Secretary shall be accorded the same
deference as they are accorded by a District Commission under subsection
6086(d) of this title.

(j) Appeals of authorizations or coverage under a general permit. Any
appeal of an authorization or coverage under the terms of a general permit shall
be limited in scope to whether the permitted activity complies with the terms
and conditions of the general permit.

(k) Limitations on appeals. Notwithstanding any other provision of this
section:

(1) there shall be no appeal from a District Commission decision when
the Commission has issued a permit and no hearing was requested or held, or
no motion to alter was filed following the issuance of an administrative
amendment;

(2) a municipal decision regarding whether a particular application
qualifies for a recorded hearing under 24 V.S.A. § 4471(b) shall not be subject
to appeal;
(3) if a District Commission issues a partial decision under subsection 6086(b) of this title, any appeal of that decision must be taken within 30 days of the date of that decision.

(l)(j) Representation. The Secretary may represent the Agency of Natural Resources in all appeals under this section. The Chair of the Natural Resources Board may represent the Board in any appeal under this section, unless the Board directs otherwise. If more than one State agency, other than the Board, either appeals or seeks to intervene in an appeal under this section, only the Attorney General may represent the interests of those agencies of the State in the appeal.

(l)(k) Precedent. Prior decisions of the Environmental Board, Water Resources Board, and Waste Facilities Panel shall be given the same weight and consideration as prior decisions of the Environmental Division.

(l)(l) Intervention. Any person may intervene in a pending appeal if that person:

(1) appeared as a party in the action appealed from and retained party status;

(2) is a party by right;

(3) is the Natural Resources Board;

(4) is a person aggrieved, as defined in this chapter;
(5)(4) qualifies as an “interested person,” as established in 24 V.S.A. § 4465, with respect to appeals under 24 V.S.A. chapter 117; or

(6)(5) meets the standard for intervention established in the Vermont Rules of Civil Procedure.

(o)(m) With respect to review of an act or decision of the Secretary pursuant to 3 V.S.A. § 2809, the Division may reverse the act or decision or amend an allocation of costs to an applicant only if the Division determines that the act, decision, or allocation was arbitrary, capricious, or an abuse of discretion. In the absence of such a determination, the Division shall require the applicant to pay the Secretary all costs assessed pursuant to 3 V.S.A. § 2809.

(p)(n) Administrative record. The Secretary shall certify the administrative record as defined in chapter 170 of this title and shall transfer a certified copy of that record to the Environmental Division when:

(1) there is an appeal of an act or decision of the Secretary that is based on that record; or

(2) there is an appeal of a decision of a District Commission and the applicant used a decision of the Secretary based on that record to create a presumption under a criterion of subsection 6086(a) of this title that is at issue in the appeal.
