Subject: [External] Comment on Act 250 Hearing Cost

[External]

According to the 2018 Annual Report of the Natural Resources Board, there have been 256 Hearings held or approximately 50 per year. Under the proposed budget as presented by Greg Boulbol recently, each hearing would cost approximately \$12,814.00. These are all new positions created to change the system. Next week, I have a hearing. I and my 2 other Commissioners will be paid \$150.00 plus travel.

Umm! Have we really done that bad a job to justify such an increase expenditure?

Please leave the present system as is. It has worked very well for 50 years. And it is cheap!

Thank you,
Tim Taylor
Chair District 3 Commission
